

# Agenda

## Canterbury Mayoral Forum

**Date:** Friday 1 February 2019  
**Time:** 9:00 am to 12:00 noon  
**Venue:** Commodore Airport Hotel, 449 Memorial Avenue, Christchurch  
**Attendees:** **Mayors/Chair:**

Lianne Dalziel (Chair), Damon Odey, Winston Gray, Winton Dalley, David Ayers, Sam Broughton, Donna Favel, Graham Smith, Craig Rowley, Gary Kircher, Steve Lowndes.

**Chief Executives:**

Angela Oosthuizen, Hamish Dobbie, Jim Palmer, Karleen Edwards, David Ward, Hamish Riach, Bede Carran, Suzette van Aswegen, Fergus Power, Bill Bayfield

**In attendance:**

Lisa Tumahai, Kaiwhakahaere, Te Rūnanga o Ngāi Tahu

Helen Wyn (Department of Internal Affairs)

Joanna Norris, ChristchurchNZ

**For item 4** – Hugh Logan (Chair, CWMS Regional Committee), Caroline Hart (Programme Manager, Environment Canterbury)

**For item 8** - Tracy Tierney (Group Manager - Environmental Services, Timaru District Council), Paul Cooper (General Manager – Regulatory Services, Waimate District Council), Fiona Newlove (Team Leader – Compliance, Monitoring and Enforcement, Ministry for the Environment), Jos Fryer (Senior Analyst – Compliance, Monitoring and Enforcement, Ministry for the Environment)

**For item 9** – Graham Mitchell (CEO, Crown Infrastructure Partners), Nick Manning (General Manager - Government and Industry, Crown Infrastructure Partners).

**Secretariat:** David Bromell, Simon Fraser, Warren Gilbertson  
Louise McDonald (minutes)

**Apologies:** Stuart Duncan

Time	Item	Paper	Person
9:00	1. Welcome, introductions and apologies		Chair
	2. Confirmation of Agenda	✓	Chair
	3. Minutes from the previous meeting	✓	Chair
	3.1. Confirmation of Minutes, 7 December 2018		
	3.2. Action points		
<b>FOR DISCUSSION AND DECISION</b>			
9:05	4. Canterbury Water Management Strategy		Hugh Logan
	4.1. Fit for the Future interim report	✓	
	4.2. Quarterly update (taken as read)	✓	
9:50	5. Biodiversity in the Canterbury region	✓	Bill Bayfield
10:20	6. Christchurch NZ update		Joanna Norris
	6.1. Canterbury Film Office		
	6.2. Canterbury district tourism offices		
	6.3. Canterbury story		
10:35	<i>Morning tea</i>		
10:45	7. Canterbury Compliance and Enforcement Strategy		Tracy Tierney
11:15	8. Climate change regional think-tank	✓	Bill Bayfield
11:25	9. Rural broadband and mobile blackspot roll-out		Graham Mitchell (CIP)
<b>FOR INFORMATION / VERBAL UPDATES</b>			
11:45	10. South Island destination management plan		Sam Broughton
11:50	11. Chief Executives Forum report	✓	Jim Palmer
	11.1. 3-year work programme	✓	
	11.2. CREDS quarterly project report	✓	
	11.3. Provincial Growth Fund pipeline report	✓	
11:55	12. General business		

**Next meetings:** Thursday 23 May – Friday 24 May 2019

**Note – Item 11.3 ‘Provincial Growth Fund pipeline report’ has been withheld under LGOIMA s9(2)(ba)**

## **Minutes from a meeting of the Canterbury Mayoral Forum held at the Commodore Airport Hotel, 449 Memorial Avenue, Christchurch on Friday 7 December 2018 at 9.00 am**

### **Present**

#### **Members:**

Ashburton District Council	Mayor Donna Favel
	Hamish Riach
Christchurch City Council	Karleen Edwards
Environment Canterbury	Bill Bayfield
Hurunui District Council	Mayor Winton Dalley
	Hamish Dobbie
Kaikoura District Council	Mayor Winston Gray
Mackenzie District Council	Mayor Graham Smith
	Deputy Mayor James Leslie
Selwyn District Council	Mayor Sam Broughton
Timaru District Council	Mayor Damon Odey
	Bede Carran
Waimakariri District Council	Mayor David Ayers
	Jim Palmer
Waimate District Council	Mayor Craig Rowley
	Stuart Duncan
Waitaki District Council	Gary Kircher
	Fergus Power

#### **In Attendance:**

Helen Wyn (Senior Regional Official – Department of Internal Affairs)  
Joanna Norris (ChristchurchNZ)

#### **Secretariat**

Simon Fraser, Warren Gilbertson, Louise McDonald (minutes)

## **1. Welcome**

Mayor Odey (acting Chair) welcomed members and those in attendance.

Apologies were accepted from Mayor Lianne Dalziel, Steve Lowndes, Suzette van Aswegen, David Ward and Angela Oosthuizen.

## **2. Confirmation of agenda**

An item regarding a proposed Canterbury Film Office and an update from Helen Wyn was added to the agenda under general business.

## **3. Minutes of Canterbury Mayoral Forum Meeting: 7 September 2018**

The minutes of the meeting held on 7 September 2018 were confirmed and the action points noted.

#### **4. Canterbury Regional Economic Development Strategy (CREDS) stocktake**

(Updates on freshwater management, value-added production and regional visitor strategy were provided at items 5, 6, 10 & 11.)

##### **Integrated regional transport planning and investment**

Mayor Dalley noted that a majority of work under this workstream was being undertaken through the Regional Transport Committee, with resilience being a key theme. Good lessons are to be learnt from the Hurunui-Kaikōura earthquake by NZTA regarding the classification of roads. Maintenance and upkeep of downgraded routes had highlighted the issue of having resilience in terms of alternative routes. Roading should be a high priority.

##### **Digital connectivity**

Mayor Odey advised that the departure of Minister Curran had slowed progress on engagement with central government on digital connectivity. Some discussions had been held with relevant stakeholders (Chorus, Rural Connectivity Group, etc.), but a hui was proposed along with relevant Ministers in the new year. A lot of work remains to be done in communicating with local communities regarding rollout in remaining areas.

##### **Education and training for a skilled workforce**

Jim Palmer referred to discussions at the previous evening's working dinner on work in South Canterbury on youth transitions, looking to further rollout across the region.

International student numbers were encouraging for next year and were expected to exceed 10,000. The Job Ready programme's target of attaining employment for 40 students has not quite been reached in its first year, but expectations are that it will be exceeded next year.

An announcement regarding construction of the joint research facility at Lincoln was expected within the next few weeks. The facility would be important for the agricultural sector both regionally and nationally.

A significant review of the polytechnic sector had stalled at a national level, but a strong commitment remained from the Government for significant rationalisation within the sector. This would not impact greatly on Canterbury as some consolidation had already occurred, with several "super" polytechnics planned throughout the country.

Mayor Ayers advised Rangiora High was in consultation with Ara about connecting students with employers. However, the proximity of the district to Christchurch did impact on students' employment opportunities.

##### **Newcomer and migrant settlement**

Mayor Favel advised that Ashburton's Welcoming Migrants programme was progressing well. She advised that the Minister of Immigration would visit Ashburton before the end of the year, and that an announcement on immigration settings was expected soon.

Mayor Smith advised that access to visa extensions for migrant workers had been granted to employers in the Mackenzie area, benefiting the district and particularly hospitality. Mayor Smith was happy to share details of this. Discussions on how this could be extended have been had with LGNZ and the Canterbury Employers' Chamber of Commerce. Mayor Ayers also suggested including local iwi.

## **5. Canterbury Water Management Strategy (CWMS) – Fit for the Future**

Hugh Logan, Chair of Canterbury Water Management Strategy Regional Committee, provided an update of the Fit for the Future project to date and discuss on some of the bigger issues emerging.

The Fit for the Future process was not a complete overhaul or review, rather focussing on the development of mid-term goals for 2025 and 2030 and their implementation. There is a group of issues arising from engagement so far. The major overarching issue was support and confidence in the strategy and the direction it was taking. Progress must be seen to be made, particularly with the inclusion of Māori and the reporting of science-backed outcomes. Climate change and resilience were also important issues, with goals planned to support that.

The focus on urban issues was around drinking water and its security. The overall picture indicated the working group tasks were on track, but goals need to be tidied up.

Mayor Ayers raised concerns about the pace of change, noting Ngāi Tūāhuriri had concerns about aspects of the Waimakariri Zone Implementation Programme Addendum (ZIPA).

Jim Palmer believed social capital was an important issue to be considered. It linked with the credibility of the programme's implementation.

## **6. Canterbury Regional Economic Development Strategy (CREDS) Project – Improving productivity and high-value manufacturing projects**

Warren Gilbertson reported back on the outputs of stage one of these projects. A roadmap has been developed, highlighting four priorities (collaborative leadership, open information, integrated land use and talent and capability building); and an action plan outlining next steps.

Mayor Kircher raised some concerns regarding the lack of a Waitaki workshop. Warren agreed, noting that some Waitaki-based stakeholders had attended other workshops, but further follow-up work was required.

### **Resolved**

**That the Canterbury Mayoral Forum:**

- 1. notes and accepts the Canterbury Agriculture: Improving Productivity and High Value Manufacturing CREDS Project: stage one executive summary**
- 2. agrees that the action plan is implemented immediately.**

Mayor Smith/Mayor Rowley  
CARRIED

## **7. Canterbury Regional Economic Development Strategy (CREDS) Economic Indicators Report**

Simon Fraser spoke this to this report, following up on discussions at the previous meeting on the 2018 CREDS indicators report.

Development of agricultural data sets would be progressed as part of the Value-added production project. Data on GPD of agricultural production and processing is available for inclusion.

The availability of statistically reliable data on employment at a sub-regional level limits the development of reliable indicators. Joanna Norris reiterated the concern but offered to provide available data to members for specific purposes if required.

It was proposed to produce an annual, rather than bi-annual economic report, noting that a lot of the data is only produced annually.

### **Resolved**

#### **That the Canterbury Mayoral Forum:**

- 1. notes that further work is required to develop an improved set of regional agricultural and value-added production data**
- 2. acknowledges that there is no statistically reliable way to calculate and present employment and unemployment rates for Canterbury territorial authority areas other than Christchurch City**
- 3. agrees to publish its economic indicators report annually, in August.**

Mayor Broughton/Mayor Favel  
CARRIED

## **8. Three Waters update**

Jim Palmer provided an update on the recent Cabinet paper (November 2018) on Three Waters and LGNZ's position statement. Key points included progress of the review and issues identified to date, and next steps and decision points over the coming 18 months. The indication from Ministers is that there is a strong case for change, and they are committed to working with key stakeholders as policy proposals are developed.

### **Resolved**

#### **That the Canterbury Mayoral Forum:**

- 1. notes central government's intended work programme for the Three Waters review**
- 2. notes that the Secretariat will convene a meeting with the delegated sub-group of Mayors early in 2019 to discuss how Canterbury might engage with and respond to the Three Waters work programme and upcoming decisions**
- 3. agrees the quality issue of waste water should stay with one regulator.**

Mayor Rowley/Mayor Odey  
CARRIED

## 9. Mayoral Forum Work Programme 2019

Jim Palmer spoke to the proposed work programme for 2019, noting local body elections being held on 1 October 2019. It was acknowledged that the Commodore Airport Hotel was a convenient venue for those travelling to Christchurch for the forum. It was also agreed to consider different locations out of Christchurch and to continue the working dinners.

It was proposed that an in-person briefing for new Mayors on the Regional Forums and their roles within them might be of more value than receiving a briefing paper. It was further suggested Mayoral Forum members could prepare a video clip that could be accessed by incoming Mayors.

### Resolved:

#### That the Canterbury Mayoral Forum:

##### 1. approve the timeline for:

- the CWMS Fit for the Future project
- preparation of a briefing to incoming Mayors/Chair, a draft triennial agreement and a three-year work programme
- planning to refresh the Canterbury Regional Economic Development Strategy for the 2019-22 local government term.

Mayor Favel/Mayor Kircher  
CARRIED

## 10. South Island destination management plan

Mayor Broughton provided an update on work on the Destination Plan to date. The first inter-regional steering group workshop was held in Wellington on 21 November 2018, with all seeing the benefit of working together on this project.

There was discussion around ChristchurchNZ's involvement and not losing any intellectual property from the project, recognising it would not necessarily undertake all the work. An application to the Provincial Growth Fund to support initial stages of the project had been submitted.

It was noted there was a delay in receiving confirmation in writing of decisions made by the Provincial Growth Fund, potentially due to under-resourcing within MBIE to support the fund. It was agreed that this Forum write to the Minister for Regional Economic Development suggesting the need for additional resources.

Helen Wyn advised it reflected well that the Mayoral Forum was working together within the region, but also thinking beyond its own boundaries. It is beneficial to think South Island-wide while keeping the focus on what is good for Canterbury.

Mayor Kircher emphasised the importance of a South Island Destination Management Plan as a vehicle to assist managing tourism pressures, and that there was plenty of enthusiasm for this work.

**Resolved:**

**That the Canterbury Mayoral Forum:**

- 1. write to the Minister for Regional Economic Development requesting more resources to support the administration and implementation of the Provincial Growth Fund.**

Mayor Broughton/Mayor Favel  
CARRIED

## **11. Canterbury Water Management Strategy**

Bill Bayfield presented this report. He advised that the Regional Council was continuing work to improve fish screens and fish passes.

The Hekeao/Hinds River project was launched recently as part of the Hekeao/Hinds Managed Aquifer Recharge (MAR). The MAR has been successful, with lower nitrate levels than predicted.

Mayor Favel expressed concern that Ashburton District Council had not been made aware of the Expression of Interest to the Provincial Growth Fund for the MAR project. The application is in its early stages, with further engagement required.

**Resolved:**

**That the Canterbury Mayoral Forum:**

- 1. report progress towards implementing the Canterbury Water Management Strategy in each district and across the region and discuss current challenges and opportunities.**

Mayor Rowley /Mayor Broughton  
CARRIED

## **12. Regional forums report**

Reports from the regional forums were noted.

Bill Bayfield advised that the Climate Change Group continues to focus on adaptation and getting the best science available, but has seen its work programme expanded considerably. Bill would like to bring a proposal to the next meeting to form a group of Mayors and Chief Executives to validate the work of the working group.

**Resolved:**

**That the Canterbury Mayoral Forum:**

- 1. note that Jim Palmer, Bill Bayfield, David Ward and Bede Carran will continue as Chairs for 2019 of the Chief Executives, Policy, Corporate and Operations Forums respectively**
- 2. note that Chief Executives agreed to amend reporting lines for the Natural Hazards working group from the Operations Forum to the Policy Forum**

3. **note that Compliance, Monitoring and Enforcement responsibilities for councils and improving biodiversity outcomes across Canterbury have been proposed for discussion at the Mayoral Forum's February 2019 meeting.**

Mayor Ayers / Mayor Gray  
CARRIED

### **13. General Business**

Jim Palmer advised that ChristchurchNZ is looking at a proposal for a Canterbury Film Office to work with film makers and producers on opportunities to film in Canterbury and highlight the region. The Film Office would promote Canterbury with others, including tourism and economic development opportunities. Hamish Riach advised there was a very talented person at Lake Hood who was well positioned to assist. Joanna Norris agreed to provide further information on the proposal at the next meeting.

Helen Wyn advised that she had resigned from her role as Senior Regional Official for Canterbury. Helen thanked members for the support during her time in the role, and would like to continue to work with the Forum in her substantive role at the Department of Internal Affairs.

### **Closure**

Mayor Odey thanked everyone for their contribution and closed the meeting at 12.00pm.

**Date:** 1 February 2019

**Presented by:** Hugh Logan, Chair, Regional Water Management Committee

## **CWMS Fit for the Future project – interim report**

### **Purpose**

1. This paper provides an update on work to develop 2025 and 2030 goals for the Canterbury Water Management Strategy (CWMS) and signals the likely nature of advice to the Canterbury Mayoral Forum when the Regional Water Management Committee (Regional Committee) presents its final report in May 2019.

### **Recommendations**

**That the Canterbury Mayoral Forum:**

1. **provide feedback on the direction of draft CWMS goals for 2025 and 2030, a supporting work programme (Attachments 1 and 2) and associated implementation issues**
2. **provide guidance on the approach for communicating Canterbury Mayoral Forum decisions in May 2019.**

### **Key points**

2. Draft CWMS goals for 2025 and 2030 have been substantially revised since the last update. The goals are now largely complete and will be further refined before final advice is provided in May 2019. A draft regional work programme for achieving the goals has also been prepared, and will continue to evolve over coming weeks, with particular attention to the timing of proposed actions.
3. The Regional Committee has developed ambitious goals, conscious of the responsibilities to future generations and the legacy they will inherit. The Regional Committee's final report will include advice on what is required to support implementation of the CWMS and ensure these aspirations can be delivered. This is likely to address:
  - **leadership and accountability** – in particular, ensuring Mayors are well supported in their leadership role, strengthening Ngāi Tahu involvement in the CWMS, supporting Zone Committees to shift their focus from planning to implementation, and ensure coordinated action among the many organisations and sectors that contribute to delivery of the CWMS

- **resourcing and funding** – the importance of an implementation plan to identify appropriate responsibilities, resources and funding so the goals can be delivered
  - **monitoring, reporting and review** – the development of monitoring and reporting processes to ensure that strategy implementation is on track and that progress is being made to achieve the goals
  - **understanding and support for the CWMS** – continuing to build understanding among water users and ensuring communities are well informed about the CWMS.
4. Stakeholders will expect to be advised of Canterbury Mayoral Forum decisions on the 2025 and 2030 goals once decisions are made in May 2019. Mayors’ guidance is sought on the approach for communicating these decisions, including any wider communication objectives (such as setting the agenda for implementation), who and how decisions should be announced and the level of desired publicity.

## Background

5. The CWMS was adopted by the Canterbury Mayoral Forum in 2009 and is now the region’s primary mechanism for implementing the National Policy Statement on Freshwater Management.
6. The purpose of the CWMS Fit for Future project is to develop 2025 and 2030 goals for the ten target areas of the CWMS and provide advice to the Canterbury Mayoral Forum on what is needed to support delivery of the strategy. The Regional Committee was tasked with leading the development of advice on these matters, supported by a Goals Working Group and Task Groups representing a range of interests and perspectives.
7. Environment Canterbury (as project lead) updated the Canterbury Mayoral Forum on the project on 7 December 2018. The update included a working set of draft goals and advice on strategic and implementation issues arising from the goals development process and engagement with stakeholders. Further work has been undertaken since then to revise the goals, develop a supporting work programme and consider implementation issues.

## Draft goals for 2025 and 2030

8. The draft set of CWMS goals for 2025 and 2030 has been updated and is summarised in Attachment 1. A brief comment on the proposed direction of goals for each of the ten CWMS target areas is set out in the following table.

Target area	Comment on draft goals for 2025 and 2030
Environmental limits	Goals largely maintain the direction set in 2010 – with emphasis on review of limits and attention to how these will be achieved
Ecosystem health and biodiversity	Range of ambitious new goals are proposed to prompt change in this area
Natural character of braided rivers	Range of ambitious new goals are proposed to prompt change in this area

Target area	Comment on draft goals for 2025 and 2030
Kaitiakitanga	Goals represent a move away from process objectives, with a greater focus on desired outcomes
Drinking water	Goals are mix of maintaining direction set in 2010 and new goal relating to untreated community drinking water supplies
Recreational and amenity opportunities	Goals largely maintain the direction set in 2010, with inclusion of new goals relating to recreational water quality
Water-use efficiency	Goals largely maintain the direction set in 2010
Irrigated land area	Shift in emphasis, with more focus on reliable and efficient use of water, than on irrigated land area (for which an indicative target was set for 2040)
Energy security and efficiency	Goals largely maintain the direction set in 2010
Indicators of regional and national economies	Range of more measurable goals are proposed to better reflect the links between water and economic resilience

9. The draft goals are close to final. Some refinement of the wording is needed to ensure all goals are clearly defined and can be measured, but further change to the nature and intent of the goals is unlikely.
10. In developing the goals, the Regional Committee has considered the changing context (for example, the effects of climate change and national policy changes such as changes to drinking water standards) and has addressed the following issues:
  - **emphasis on CWMS first-order priorities** – many new goals are proposed in target areas relating to ecosystem health and biodiversity, the natural character of braided rivers and kaitiakitanga. This reflects a desire by stakeholders to see greater emphasis on first-order priorities for water use and, in particular, more progress in achieving desired cultural and environmental outcomes.
  - **better water use** – Improving the efficiency and reliability of water use has become increasingly important. Draft goals for the irrigation target area focus on reliable and efficient use of water rather than on irrigated land area.
  - **greater focus on urban issues** – the approach has been to ensure sufficient focus on urban issues in the work programme rather than draft specific goals. Proposed goals are relevant to both urban and rural areas.
  - **addressing Ngāi Tahu concerns** – draft goals for the kaitiakitanga target area represent a move away from process objectives, with a greater focus on the outcomes desired by tangata whenua. Across the target areas, the intent is to express goals in a way that is meaningful for tangata whenua and reflects the concept of ki uta ki tai (integrated management from the mountains to the sea).
  - **need for resilience** – across the target areas, consideration has been given to supporting resilience (for example, through storage and efficient and reliable water use to support environmental flows and resilience in local economies).

## **2040 goals**

11. The Regional Committee has not reviewed the 2040 goals, which are beyond the scope of this project. However, some adjustment may be required given changes since 2010 and shifts in emphasis coming through the draft 2025 and 2030 goals. The Regional Committee will provide further advice in its May 2019 report.

## **Emerging regional work programme to support the goals and strategy implementation**

12. The second round of Task Group and engagement workshops considered what actions are needed to achieve the draft 2025 and 2030 goals. These actions have now been consolidated in a draft regional work programme (summarised in Attachment 2). Additional actions are required to address strategic implementation matters (discussed below) and will be incorporated in the draft work programme.
13. The draft work programme is a first working draft and identifies initial thoughts on lead agency or sector. Further work is required to firm up proposed actions and lead agencies, check alignment with the National Policy Statement on Freshwater Management, Zone Implementation Programme Addenda and existing work programmes, and consider the deliverability of the work programme as a whole, with particular attention to resource and implications and the timing of proposed actions.
14. The Canterbury Mayoral Forum will be asked to endorse the high-level work programme in May 2019 as a starting point for discussion with contributing organisations. Further conversations with individual organisations will then be required to confirm responsible agencies, fully scope and cost each area of work, and secure the necessary resources and funding (for example, through Long-Term Plan processes). The work programme will continue to evolve over time as this work is carried out, and in response to policy developments at the national level (such as changes to the National Policy Statement on Freshwater Management).
15. An important aspect of the CWMS strategic approach is progressing all ten target areas in parallel. However, the nature and level of effort required to progress the 2025 and 2030 goals will be uneven across the target areas. There has been more progress in some areas than others over the past ten years; for example, there has been significant work on setting environmental limits through sub-regional planning processes as a critical first step in making progress in other target areas.
16. During the engagement process, some stakeholders expressed concern that CWMS implementation to date has not adequately reflected first-order priorities for water use (the environment, customary uses, community supplies and stock water). Particular concerns were expressed about lack of progress towards achieving desired cultural and environmental outcomes.
17. The CWMS priorities for water use are taken into account in planning processes and action has been taken to progress cultural and environmental outcomes. However, the

time lag between action taken and a resulting measurable outcome means there is little visible progress in some areas and there is scope to do more. Many of the draft goals for 2025 and 2030 relate to the kaitiakitanga and ecosystem health and biodiversity target areas, as do many of the supporting actions in the draft work programme.

## **Strategic implementation matters**

18. The Regional Committee has developed ambitious goals for 2025 and 2030 and is very conscious of the responsibilities to future generations and the legacy they will inherit. It is critical that mechanisms are in place to ensure these aspirations can be delivered.

## **Leadership and accountability**

19. Implementation of the CWMS requires:

- effective ongoing leadership – to champion the CWMS, build engagement and support the ongoing mobilisation of community action
- participation of a broad range of interests across Canterbury, particularly the active involvement and support of Ngāi Tahu
- mechanisms for oversight – to ensure that the ‘right’ action is being taken and commitments to action are being honoured
- management support to provide information and advice and ensure that CWMS processes are well co-ordinated.

20. Looking ahead to the next ten years, work is required to:

- ensure ongoing support for the Canterbury Mayoral Forum in its role of championing and maintaining oversight of the strategy
- strengthen the role of Ngāi Tahu in water management processes
- support the Zone Committees to shift their focus from planning and delivery through clear work programmes
- ensure co-ordinated action by a wide range of agencies and sectors across the CWMS target areas, including Environment Canterbury, territorial authorities and key industry and community partners.

## **Resourcing and funding**

21. The draft goals and work programme are ambitious and will require substantial effort and financial resources to make them happen. An early priority is therefore:

- identifying where responsibility for each action lies
- obtaining commitments from communities and organisations to allocate people and other resources to help deliver the actions
- considering how actions are best funded.

22. Subject to Canterbury Mayoral Forum decisions in May 2019, Environment Canterbury will develop an implementation plan in the second half of 2019 to address these issues, in discussion with the CWMS partners likely to be responsible for implementing specific actions. The Canterbury Mayoral Forum has an important leadership role in endorsing the work programme, but funding decisions will be the responsibility of individual agencies.

### **Monitoring, reporting and review**

23. Good monitoring and reporting processes are required to ensure that strategy implementation is on track and that progress is being made to achieve the goals. Regular reporting is required to provide assurance to the Canterbury Mayoral Forum, Zone Committees, key partners and communities, along with agreed processes for updating the work programme and considering and taking remedial action if necessary.
24. There are many areas where action is needed to improve information and data collection and build the knowledge base. These are identified in the draft work programme. The work programme also includes action to ensure that reporting is meaningful to Māori and that measurement systems integrate Mātauranga Māori and scientific methodologies.

### **Understanding and support for the CWMS**

25. A key strength of the CWMS has been growing understanding among different water users about their different perspectives and interests (increasing social capital). Continuing to build social capital is important to the success of the CMWS. There is also a need to ensure that communities are better informed about the work that is underway to improve water management and the successes that exist, as well as the areas where progress is not being made (and why). Communication is a key area of work included in the draft work programme, and will be supported by good monitoring and reporting processes.

### **Cost, compliance and communication**

#### **Financial implications**

26. Financial implications will be addressed in the Regional Committee's final report in May 2019. Resourcing the next phase of work to develop an implementation plan and monitoring framework will have resource implications for councils. Delivering specific work programme actions will have financial implications for multiple agencies and sectors. Any new costs for local government would be considered in the 2020/21 budget cycle.

## **Risk assessment**

27. Key risks and mitigations include:

- lack of broad support for 2025 and 2030 goals and supporting work programme – this risk has been mitigated by involving a wide range of interests and perspectives in the project. Some residual risk remains, however, as the rūnanga and Te Rūnanga o Ngāi Tahu have had limited capacity to engage and some stakeholders (e.g. Fish & Game and Forest & Bird) have, to date, opted not to engage altogether. This will be managed by clearly communicating project processes and next steps to ensure the goals are delivered.
- work programme is unable to be delivered due to lack of buy-in, competing priorities or lack of resources – this risk is being mitigated by considering deliverability as the work programme is developed, and will also be managed by developing an implementation plan with partner agencies
- national policy directives (such as changes to the National Policy Statement on Freshwater Management) have significant implications on the goals or work programme – this will be managed by regular communication with central government so agencies are aware of potential impacts, and ensuring the work programme remains a live document and can be adapted over time.

## **Engagement and communication**

28. The project has involved two rounds of engagement with Zone Committees, rūnanga, community groups, sector groups, a youth focus group, district health boards and central government. The project team will undertake further targeted engagement over coming weeks on specific matters and will provide all stakeholders with a project update in February 2019.
29. Stakeholders will expect to be advised of Canterbury Mayoral Forum decisions on the 2025 and 2030 goals in May 2019. The project team would appreciate guidance on the approach for communicating these decisions, including any wider communication objectives (such as setting the agenda for implementation), who and how decisions should be announced, and the level of desired publicity. Options include:
- a high-key release, or a low-key release with targeted communication to key stakeholders
  - the Mayoral Forum chair (or a sub-group of Mayors) fronting a media release with the Chair of Environment Canterbury as Mayoral Forum lead on freshwater management.
30. Feedback from this meeting will inform development of a draft communications strategy for approval by the Mayoral Forum when it receives the final report on 24 May 2019.

## **Next steps**

31. Key next steps over the coming weeks are to refine the goals, continue developing the draft work programme and work with the Regional Committee to develop recommendations on strategic implementation matters. The Regional Committee's final report will be ready for the Canterbury Mayoral Forum meeting of 24 May 2019.

## **Attachments**

- Summary of draft CWMS goals for 2025 and 2030
- Emerging regional work programme to support the goals and strategy implementation

## Attachment 1: Summary of draft CWMS goals for 2025 and 2030

Note: highlighted cells in the table represent notable changes as a result of the CWMS Fit for the Future project

Target area (CWMS)	Theme (Targets report)	Intermediary goals
Environmental limits	Environmental flows and catchment limits	<p>One of the 2040 goals is that environmental flow and catchment load limits are achieved in all catchments. To help achieve that the intermediary goals continue the 2020 goal to provide for environmental flows and catchment load limits to be reviewed in response to new information.</p> <p>In addition, new intermediary goals propose that all planning processes consider how the limits will be achieved, and set targets for the proportion of catchments that have undertaken consent reviews to achieve flows and catchment load limits.</p>
Ecosystems health and biodiversity	Freshwater species and their habitat	Intermediary goals seek an increase in abundance of all threatened/at-risk indigenous species.
	Wetlands	Intermediary goals set targets for the restoration of former or new wetlands and continue goals from 2015 and 2020 to protect existing wetlands.
	Drylands	Intermediary goals seek to manage the effects of water use on indigenous ecosystems, including drylands.
	Hapua, lagoons, estuaries	Intermediary goals seek improvement in key ecosystem health indicators for all hapua, lagoons and estuaries.
	Lowland streams and lakes	Intermediary goals seek incremental increase in percentage of lowland lakes and streams where condition and water quality is improved, and in riparian planting along prioritised waterways.
	High country foothill streams and lakes	Intermediary goals seek to maintain or improve condition and water quality.
	Understanding emergent contaminant risks	Intermediary goals seek to ensure that emerging contaminants risks are understood and limits set where required.
Braided rivers	Braided river character	The 2010 goal sets out a basic management approach for braided rivers, which is appropriate to maintain over the next 10-15 years. Intermediary goals are consistent with the 2040 goal that Canterbury's braided rivers show the dynamic braided nature typical of such rivers, and include a new goals of increased community knowledge, awareness and guardianship.

Target area (CWMS)	Theme (Targets report)	Intermediary goals
	Ecosystems, habitats and species Riparian wetlands, springs and lagoons	<p>Environmental flows: The 2015 goal was to identify where flows do not include the characteristics necessary for braided river health. With that identified, new 2025 and 2030 goals focus on making progress towards achieving those flows.</p> <p>Species and habitats: 2025 goals build on the 2020 goals to protect significant habitat for indigenous braided river flora and fauna, and protect and enhance associated riparian wetlands, springs and lagoons. A new 2030 goal is proposed seeking a resulting measurable change in the abundance and health of braided river dependent species.</p> <p>New intermediary goals are proposed setting targets for the proportion of braided river habitat under active management, along with a new 2030 to improve the status of indigenous bird species.</p>
Kaitiakitanga	Marae drinking water supply	Intermediary goals seek to maintain high quality drinking water for marae and associated papakāinga.
	Working together in partnership	Intermediary goals seek integration of ki uta ki tai into water management throughout the region, refresh of iwi management plans, the continued building of institutional capability and establishment of tangata tiakiwai (water guardians). New goals are proposed to support succession planning.
	Wāhi taonga and mahinga kai	Only one goal was set for 2040, to protect wāhi taonga and mahinga kai waterways. A series of intermediary goals are therefore proposed, to foster the restoration of specific sites, protect Ngāi Tahu values, and identify and protect at-risk freshwater taonga species.
Drinking water	Source water quality	Untreated supplies and treatment: There were no 2020 and 2040 goals. Proposed 2025 and 2030 goals seek to continue 2010 commitments to reduce need for treatment of source drinking water, reduce nitrates in groundwater, improve groundwater modelling and improve drinking water quality.
		Emerging contaminant risk: The intermediary goals are consistent with the wording of the 2020 and 2040 goals.
		Water volumes: There was no goal for 2020 or 2040. The intermediary goals assert priority for drinking water availability over other water uses.
	Catchment nutrient load	Existing 2020 and 2040 goals relate to the setting of catchment load limits and increasing nutrient use efficiency. Intermediary goals recommended for 2025 and 2030 provide ongoing support for this approach.

Target area (CWMS)	Theme (Targets report)	Intermediary goals
Recreation and amenity opportunities	Water based recreational opportunities	Proposed 2025 and 2030 goals seek a positive trend in the diversity, availability and quality of recreational opportunities in each zone. Intermediary goals also set out steps that will lead to the restoration of major fresh water recreational opportunities in each zone by 2040, and to identify threats to recreational uses.
	Freshwater angling	Intermediary goals seek to improve the health of lowland rivers, streams and lakes and an increase in fishing opportunities.
		Salmonid species: Intermediary goals seek to increase the number and area of protected salmon spawning sites.
	Recreational water flows	Proposed 2025 and 2030 goals provide a continuation of the 2020 goal of progressing achievement of environmental flows.
Recreational water quality	A 2030 goal is recommended to achieve the NPS-FM target of 92% of rivers and 81% of lakes in Canterbury being swimmable. New goals are also proposed in relation to managing the risk from cyanobacteria to public health.	
Water use efficiency	Best practice and benchmarking	Proposed goals for 2025 and 2030 support the use and implementation of benchmarks, increasing uptake of Good Management Practice and increasing the benefits gained per unit of water.
Irrigated land area	Land area and reliability	Intermediary goals seek a greater focus on reliability with step-wise increases in the percentage of irrigated land provided with sufficient reliability, in order to bridge 2020 and 2040 goals.
	Infrastructure	Only one intermediary goal is proposed, as the thinking has moved on from the need for physical infrastructure to providing solutions in a number of ways including consent reconfiguration, scheduling and improving the planning and consenting framework across the region.
Energy security and efficiency	Energy security and efficiency	Intermediary goals support 2015 and 2020 goals, and seek to improve productivity per unit of energy used.
Indicators of Regional and National Economies	Added-value from water	Intermediary goals set interim measures of increasing added-value, employment, productivity and household income from the use of water.
	Externalities and opportunity costs	<i>Intermediary goals have not yet been defined and will be considered by the Goals Working Group.</i>

## Attachment 2: Emerging regional work programme to support the goals and strategy implementation

Notes:

- The work programme is a working draft and has yet to be discussed with possible lead agencies.
- The work programme only includes goal-related actions at this stage. Additional process actions will be required to support strategy implementation.
- Further work is required to size each action, determine the extent to which initiatives are already underway, and identify appropriate sources of funding.

Target area (CWMS)	Primary action type	Summary of actions (first draft)	Possible lead/s
Environmental Limits	Regulatory	Undertake regular reviews of environmental flow and catchment load limits to ensure they remain appropriate, and consider regulatory and non-regulatory methods for implementing limits.	<b><i>Withheld under LGOIMA s7(2)(f)(i) &amp; s7(2)(i) – lead agencies yet to be confirmed and under negotiation</i></b>
		Undertake monitoring and enforcement to ensure compliance with flow requirements on resource consents.	
		Establish a programme to ensure that environmental flow regimes and catchment load limits are reflected in consent conditions.	
	Communication & Education	Promote GMP and management practices to enable catchment load limits to be met. Develop a rural-focused technology uptake programme.	
Monitoring	Develop and implement methods for annual reporting on progress toward achieving environmental flow and catchment load limits.		
Ecosystem Health & Biodiversity	Research	Review the effectiveness of currently used fish screen and fish exclusion devices and identify appropriate fish exclusion devices for Canterbury waterways.	
	Action	Develop an integrated programme of action to protect and manage native fish habitats and populations.	
		Develop an integrated programme of action to <u>protect</u> and manage <u>existing</u> wetlands.	
		Develop an integrated programme of action to <u>restore</u> and manage <u>former</u> wetlands.	
		Develop an integrated programme of action to prevent further loss of ecosystem health in river mouths and coastal lagoons.	
		Develop an integrated lowland stream programme (including drains).	
Develop an integrated high country waterway programme.			

Target area (CWMS)	Primary action type	Summary of actions (first draft)	Possible lead/s
		Develop a programme of action to protect and manage dryland ecosystems.	<p><b><i>Withheld under LGOIMA s7(2)(f)(i) &amp; s7(2)(i) – lead agencies yet to be confirmed and under negotiation</i></b></p>
		Determine the extent of farmland encroachment into dune ecosystems, and identify and take appropriate responses.	
		Review the effects of forestry operations on waterway health and investigate and implement measures for reducing effects.	
		Develop a programme of action to identify and report on emerging contaminants.	
Natural Character of Braided Rivers	Research	Develop a braided river work programme to guide indigenous flora and fauna habitat and species protection.	
	Action	Continue to encourage and support community-led initiatives to manage braided river margins.	
	Regulatory	Investigate whether Farm Environment Plans can require properties next to braided rivers to address the effects of farming activities on braided river ecosystems, and if necessary, review regional planning documents to enable this.	
		Review statutory and non-statutory documents to ensure that river bed environments are defined and braided river ecosystems are appropriately managed and protected.	
		Review statutory and non-statutory documents to ensure provisions relating to braided river systems recognise and provide for ki uta ki tai.	
		Ensure appropriate management tools are in place to monitor and manage gravel extraction – to maintain braided river character, minimise flood risk and maintain aggregate supply.	
		Ensure appropriate management tools are in place for the river mouths of major braided rivers – to maintain the dynamic, braided nature of such rivers.	
		Ensure regional and district planning documents include provisions to maintain the landscape values of the upper reaches of braided rivers and manage the effects of the taking and use of water and land use change.	
Kaitiakitanga  <i>(Further discussion)</i>	Action	Develop a comprehensive programme of action to manage marae drinking water sources.	
		Develop a programme of action focussing on freshwater taonga species.	
		Develop and implement a region-wide mahinga kai framework to inform and influence statutory and non-statutory planning processes.	

Target area (CWMS)	Primary action type	Summary of actions (first draft)	Possible lead/s
<i>with Ngāi Tahu required)</i>		Continue to develop and implement a Tuia work programme that includes institutional capability building and the delivery of specific CWMS targets.	<b><i>Withheld under LGOIMA s7(2)(f)(i) &amp; s7(2)(i) – lead agencies yet to be confirmed and under negotiation</i></b>
	Monitoring	Provide rūnanga with annual Mātauranga Māori-informed reporting on the health of waterways to inform water management decision-making.	
	Regulatory	Review statutory and non-statutory planning documents, strategies and bylaws to ensure they appropriately manage Fenton Reserves.	
		Ensure cultural values are recognised when developing, reviewing and implementing environmental flow and allocation regimes.	
	Research	Review the extent to which iwi management plans have been taken into account in council activities, and the extent to which iwi are implementing them. Develop funding mechanisms to support continued development of iwi management plans.	
		Develop and implement a ki uta ki tai strategic framework.	
Communication & Education	Develop a programme to support cultural values and ensure no loss of intergenerational cultural knowledge and practice in the region.		
Drinking Water	Action	Develop a region-wide drinking water programme to ensure that all drinking water supplies are protected and there is no decline in the quality of drinking water.	
		Develop a programme to ensure that all people in Canterbury are connected to a water supply that meets the New Zealand Drinking Water Standards for health-based determinants.	
		Deliver an ongoing work programme to address nitrate levels in groundwater.	
	Regulatory	Review regional and district statutory and non-statutory planning documents, strategies and bylaws to ensure that they align with and support the CWMS targets for drinking water.	
	Communication & Education	Develop communications tools, where required, to educate communities about drinking water sources, risks and protection measures in their local areas.	
	Research & monitoring	Deliver an ongoing work programme to address the effects of nitrates on human health.	
		Continue to update groundwater modelling and monitoring programmes to better understand drinking water issues and options, and share information with the community.	

Target area (CWMS)	Primary action type	Summary of actions (first draft)	Possible lead/s
		Develop a contaminants watchlist programme.	<b><i>Withheld under LGOIMA s7(2)(f)(i) &amp; s7(2)(i) – lead agencies yet to be confirmed and under negotiation</i></b>
Recreational and Amenity Opportunities	Action	Establish a work programme to diversify and enhance water-based recreational opportunities in each zone.	
		Identify and implement actions to prioritise and protect salmon spawning sites.	
		Develop an integrated programme of action to restore and protect fishing opportunities.	
	Communication & Education	Develop a programme to understand and publicly communicate threats to freshwater recreational opportunities, including how risks can be managed.	
		Implement a system to publicly report water quality monitoring data in real time.	
		Review monitoring protocols for cyanobacteria and develop an education and communication programme to ensure the public are aware of the health risks of cyanobacteria contamination.	
Water-use Efficiency	Monitoring	Establish a regional working group to establish benchmarks for water use.	
	Coordination	Establish a regional working group to develop best practice standards for water use.	
		Develop and implement an urban water use programme.	
	Research	Develop a programme to address over-allocation and water use efficiency.	
	Action	Develop a system to monitor and report on the benefits gained per unit of water, and implement measures to improve the benefits gained per unit of water.	
Irrigated Land Area	Research	Revise the CWMS regional infrastructure plan to include an updated supply demand/distribution model, greater regard for the flows required to meet environmental, recreational and cultural flows, as well as options for centralised water storage across each node and facilitating collaboration between scheme operators. Undertake a case study once the update is completed.	
		Investigate options for funding of infrastructure.	
		Review zone implementation (infrastructure) programmes to ensure they demonstrate a balance between environmental and economic water demands, and align with regional supply and demand modelling.	

Target area (CWMS)	Primary action type	Summary of actions (first draft)	Possible lead/s
	Regulatory	Prepare an issues and options report on regulatory and non-regulatory mechanisms to facilitate infrastructure efficiency improvements, considering the revised infrastructure plan.	<b><i>Withheld under LGOIMA s7(2)(f)(i) &amp; s7(2)(i) – lead agencies yet to be confirmed and under negotiation</i></b>
	Coordination	Develop and implement a water reliability programme.	
Energy Security and Efficiency	Research	Prepare an issues and options report to determine potential electricity savings in the irrigation sector.	
	Communication & Education	Work by electricity distribution companies with major water users to understand and enhance opportunities for mutual benefit (load management, capacity availability, generation options).	
Indicators of Regional and National Economies	Research	Gather information on metrics developed in relation to 2025 goals.	
		Identify preferred option for funding policy for reinvestment in natural capital and a method for implementing it.	
		Establish a regional task force to investigate and provide recommendations on innovative, high-value and sustainable primary production options.	

**Date:** 1 February 2019

**Presented by:** Steve Lowndes, Environment Canterbury

## Canterbury Water Management Strategy update

### Purpose

1. This paper provides the Canterbury Mayoral Forum with an update on region-wide progress towards implementing the Canterbury Water Management Strategy (CWMS) for November 2018 – January 2019.

### Recommendations

#### That the Mayoral Forum:

1. receive the report and take it as read.

### Regional and Zone Committee updates

2. Zone managers, facilitators and staff in territorial authorities have summarised the current focus for the CWMS Zone and Regional Committees. The table is included in Appendix 1.

### Environment Canterbury updates

3. At its meeting on 13 December 2018, Environment Canterbury resolved to make **Plan Change 5** to the Canterbury Land and Water Regional Plan operative on 1 February 2019. This was publicly notified on Wednesday 23 January 2019. This represents a significant step change to water management across the region.
4. The **Waimakariri Water Zone Committee's** recommendations for improved freshwater management have been received by Environment Canterbury and Waimakariri District Council at their respective council meetings in December. The Committee's Zone Implementation Programme Addendum (ZIPA) will provide the basis for a plan change to the Canterbury Land and Water Regional Plan. The plan change will be publicly notified by Environment Canterbury in mid-2019. The Zone Committee did exceptionally well to land these recommendations which are far reaching, but it needs to be noted that they do not go far enough or fast enough for Ngāi Tūāhuriri.
5. The **Orari Temuka Opihi Pareora (OTOP) Water Zone Committee** finalised its recommendations for improving the health of waterways in a large part of South Canterbury. The Committee's Zone Implementation Programme Addendum (ZIPA) was recently received by Timaru and Mackenzie District Councils and Environment Canterbury at their respective council meetings to inform their plans and on the ground

actions. It will be considered by Waimate District Council in early 2019. A plan change to the Canterbury Land and Water Regional Plan is expected to be notified in mid-2019. As with Waimakariri, the recommendations represent a major achievement for the Zone Committee.

6. The Land and Water Regional Plan (LWRP) provides direction on how land and water resources are to be managed in Canterbury. Management of farming activities are supported through “Good Management Practices” and associated tools (e.g. Farm Environment Plan (FEP) and audits, the Farm Portal, and consents to farm).
  - The LWRP requires approximately 3,800 farms to undertake a Farm Environment Plan (FEP) Audit as a condition of land use consent to farm. Consents for 1,500 of these farms are managed by irrigation schemes, while the remaining 2,300 require individual land use consent to farm. Currently 2,800 farms have completed a FEP and 569 consents for farming activities have been granted.
  - The Farm Portal has been developed for all farmers to help determine if a consent to farm is required. Approximately 5,000 farms require registration on the farm portal as a permitted activity. At present there are approximately 500 registered users.
7. There are 922 consents with fish screen conditions. The fish screen improvement campaign, one of our key targeted enforcement areas for 2018–19, has initially focused on 50 consents with a fish screen condition, selected with input from rūnanga, the Department of Conservation and Fish & Game. These consents are located mainly at large intakes, or environmentally significant or sensitive sites. Environment Canterbury will focus on working with consent holders to upgrade their screens to current best practice as well as engaging with industry. Industry has initiated a **Fish Screen Working Group** operating under the auspices of the CWMS Regional Committee. This group is focussing on information gaps to inform improved intake configuration and practices.
8. A number of projects to improve water quality, increase river flows and groundwater levels are being trialled in the region. **Targeted Stream Augmentation (TSA)** and the Selwyn **Near River Recharge (NRR)** projects are supported by the Selwyn-Waihora Zone Committee. TSA aims to re-establish native aquatic species strongholds in the catchment, particularly for the Canterbury Mudfish (Kōwaro). NRR aims to support the Waikirikiri/Selwyn River system by adding water during dry years to avoid the loss of ecosystem health.
9. The Ashburton-Hinds / Hekeao **Managed Aquifer Recharge (MAR)** project demonstrates the potential for MAR to reduce (dilute) nutrient (nitrate) concentrations in groundwater and improve groundwater storage levels, leading to improved flows in the lowland waterways to protect environmental and cultural values. The Hekeao/Hinds River (a NRR) project was commissioned in September. Nine new small-scale infiltration sites are operational with on-going testing at further new sites.

## In the news

### Since November 2018

10. Environment Canterbury confirmed in early November that **Amuri Irrigation Company's** (AIC) Farm Environment Plan (FEP) template met the requirements of the Land and Water Regional Plan.
11. **Hurunui Water Project** (HWP) shareholders voted unanimously to accept the offer from AIC. AIC is proposing a smaller piped irrigation scheme between the Hurunui River and Hawarden/Waikari and with the takeover, hold the resource consents held by HWP.
12. A new river catchment group for **Otipua–Saltwater Creek** was formed in November. A group of more than 50 people showed their interest and heard from the Cashmere Catchment Group on their experiences of being part of an urban/rural catchment group.
13. Water-related topics in the media included:
  - independent hearing commissioner, Richard Fowler QC, granting Cloud Ocean Water's consent to take water from a deeper bore
  - Environment Canterbury's water quality testing at around 100 popular swimming sites across the region with results posted weekly on the Land, Air, Water Aotearoa (LAWA) website
  - declining trend in dairy conversion across Canterbury in light of strict water quality limits
  - Polarcold Stores admitting in the Christchurch District Court a single charge in breach of the Resource Management Act discharging ammonia into Kaputone Stream
  - a poll by Fish and Game shows 82% of New Zealanders consider the pollution of lakes and rivers a top concern
  - protesters turning the water supply off to the Environment Canterbury building.

## Meetings and events

14. A summary of issues arising at recent meetings and events:

Date/Location	Event	Relevance to CWMS/Event summary
29 October - 2 November 2018 Canberra	What's in Our Water 2018 Symposium	The latest research on all aspects regarding emerging contaminants and their many degradation products.
4-7 December 2018	New Zealand Hydrological Society and Meteorological Society	Annual joint conference with the theme of "The Hydrological Cycle in Changing Times"
10-14 December 2018 Nelson	New Zealand Freshwater Sciences Society Conference	The Society celebrated its 50 <sup>th</sup> annual conference. The theme of the conference was "Ka mua, ka muri: Looking back, moving forward".

Date/Location	Event	Relevance to CWMS/Event summary
11-12 February 2019 Wellington	National Freshwater Conference	2019's conference focusses on "collaborating to create sustainable and efficient freshwater management strategies for the benefit of all New Zealanders"

## National initiatives

15. The Government has identified priorities for water management (maintain/improve water quality, providing better protection of wetlands and addressing estuaries and sediment). These include:
- amendments to the National Policy Statement Freshwater Management (NPSFM) based on the Sheppard principles; all aspects of ecosystem health will be managed
  - new National Environmental Standards on Freshwater Management (NESFM) providing clear direction on resource use and identifying where rapid action is required (e.g. at-risk catchments)
  - RMA amendments to better enable consent reviews, implement limits quickly and strengthen enforcement tools
  - further work on allocation of freshwater resources (discharges and water takes).
16. Regional councils have also prepared a report on their capability and capacity to address erosion/sediment issues. This report will inform future discussions with Ministry officials and support the sector's involvement with the Government's One Billion Trees initiative. MPI has highlighted approximately \$220 million over 3 years, of which two-thirds will be for native trees. The Government is also considering the skills and labour aspect of this work.
17. Swimmability targets for Canterbury rivers and lakes were finalised and made publically available on the Environment Canterbury website on 21 December 2018: <https://ecan.govt.nz/get-involved/news-and-events/2018/environment-canterbury-sets-swimmable-lakes-and-rivers-targets/>.
18. In addition, councils have argued to the Minister that further work is required in a number of areas:
- seasonality should be considered when determining the long-term grading of contact recreation
  - there is a disconnect between the NPSFM swimmability targets and the need to manage public health warnings
  - freshwater microbiological guidelines used to manage contact recreation are in urgent need of review.

We are waiting a response to the concerns raised.

19. A review of the current science funding model has been commissioned to address ongoing concerns with the current approach.

## Appendix 1: Zone Committee Focus: Overview

CWMS Committee	Focus of the Zone Committee Work Programme	Highlights of practical work underway
<p><b>Kaikōura</b></p>	<p><b>Earthquake Recovery:</b> Kaikōura earthquake</p> <p><b>Immediate Steps:</b> funding and projects are being reviewed</p> <p><b>Collaborative Inter-agency Programmes</b></p>	<ul style="list-style-type: none"> <li>Managing, monitoring and reporting of earthquake-related consents and emergency actions under the Order of Council (Hurunui/Kaikōura Earthquakes Recovery Act 2016).</li> <li>Highway consent monitoring continues fortnightly with monthly audits being completed. Significant river gravel extraction is slowing down - remediation of river beds "naturalness" is starting.</li> <li>Three significant wetland protection and enhancement projects under the Kaikōura Flats (Lyell/ Waikōau Creek) Catchment Programme are due for completion by June 2019.</li> <li>Continuing to develop and implement the Kaikōura Plans Recovery Project – joint project with ECan, MPI, Fonterra, and DairyNZ covering 'in paddock' treatment of drainage water, land assessment and riparian restoration, and integration of mahinga kai values.</li> </ul>
<p><b>Hurunui Waiau</b></p>	<p><b>Minimum Flows:</b> Implementing the minimum flow rates in Hurunui and Waiau Rivers.</p> <p><b>Implementation:</b> A significant environmental enhancement package from Amuri Irrigation Scheme.</p> <p><b>Good Management Practice:</b> Work underway to develop a targeted plan change to permit dryland farming.</p>	<ul style="list-style-type: none"> <li>Continues to ensure irrigation companies complete Farm Environment Plan audits.</li> <li>The Farming Post Quake Project, led by Beef and Lamb NZ, supported by Environment Canterbury continues to support the recovery of farm land and businesses following the 2016 earthquakes.</li> <li>Hurunui District LandCare Group is developing information on Good Management Practice.</li> <li>Continuing the Hurunui Waiau Braided River Immediate Steps flagship project to protect and enhance braided river bird communities on the Hurunui and Waiau Rivers.</li> <li>"Hurunui Splash" project to develop four community swimming holes has begun with work commencing on the first two sites (Balmoral and Waiau townships).</li> <li>The water quality monitoring site has been installed in the Waiau Hapua. The site will eventually be fully telemetered and with a camera to observe river mouth openings.</li> <li>Consultation has been carried out and a recommendation by the Zone Committee has been made for a plan change to fix the 10% rule to enable dryland farming to continue.</li> </ul>
<p><b>Waimakariri</b></p>	<p><b>RMA Planning:</b> ZIP Addendum presented to Councils in December 2018.</p> <p><b>Implementation:</b> A range of priority projects</p>	<ul style="list-style-type: none"> <li>Work has started on the "Clean and Green" Silverstream project. This work includes making improvements to water quality, riparian planting and developing recreational loop track.</li> <li>'First 500' Springhead Protection Project continues – a proactive approach to the protection of major springheads and the first 500 metres of waterways beyond the springheads in the catchment.</li> <li>Priority 'on the ground actions' have been identified ranging from enhancing native plantings, protecting sites of ecological significance and showcasing GMP compliance.</li> </ul>

<p><b>Christchurch-West Melton</b></p>	<p><b>Stormwater:</b> Storm-water and associated behaviour change issues.</p> <p>Contributing to <b>Waimakariri Zone Committee's</b> work on nutrient loads.</p>	<ul style="list-style-type: none"> <li>• Attended and hosted community events to raise awareness about storm-water quality and the behaviour changes needed.</li> <li>• A Stormwater Superhero workshop was attended by community groups, the Dept of Conservation, University staff and Committee. It was a forum to discuss the mobile resource trailer available to community groups to educate others on stormwater best practice. The workshop also discussed the Community Water Partnership which aims to bring all the groups together to give them more of a voice on water issues.</li> <li>• Funded the youth-led "Walk the Avon" to increase awareness of local taonga and development of the "Tuna and Drains" game used during the Stormwater Super Heroes.</li> <li>• Continues to work on dryland projects by the Waimakariri River and provided feedback on the draft Waimakariri Zone Implementation Programme Addendum.</li> </ul>
<p><b>Banks Peninsula</b></p>	<p><b>Forestry Impacts:</b> Considering options and actions related to increasing concerns about the significant risk that forestry poses to waterways.</p> <p><b>Whaka-Ora Healthy Harbour:</b> To restore the cultural and ecological health of Whakaraupō/ Lyttelton Harbour.</p> <p><b>Sediment Control</b></p> <p><b>Wairewa Bank Stabilisation</b></p>	<ul style="list-style-type: none"> <li>• Working on the implementation of the new National Environmental Standards (NES) for Plantation Forestry which came into effect on 1 May 2018, including holding meetings with industry to provide updates on requirements under the NES.</li> <li>• Implementation of the Whaka-Ora Healthy Harbour Plan begins.</li> <li>• Roadside Cutting Project to manage sediment is being undertaken with Christchurch City Council. A report identifying trial locations and methodologies was due mid-December.</li> <li>• Wairewa Bank Stabilisation Project – Joint project between Wairewa Rūnanga and the Banks Peninsula Zone Committee to stabilise the banks of streams in the Wairewa catchment continues to progress through the planning stages with the aim of completing some work this planting season.</li> </ul>
<p><b>Selwyn-Waihora</b></p>	<p><b>Farming at GMP:</b> Visiting farms to advise on GMP and mahinga kai outcomes.</p> <p><b>Swimmable Selwyn at Coes Ford:</b> Managing tributary impacts.</p> <p><b>Biodiversity Projects:</b> coordination and partnership on projects.</p> <p><b>Building stronger relationships</b> with Te Waihora Co-Governors,</p>	<ul style="list-style-type: none"> <li>• Farming at Good Management Practice (GMP) campaign targeting &gt;50 ha irrigated farms continues.</li> <li>• Over 33% of the total consents granted in the GMP campaign to date are in Selwyn Waihora zone.</li> <li>• Ongoing focus on farming at GMP within the Lake Area of the Cultural Landscape Values Management Area (CLVMA) and within the River Zone and the Lower Phosphorus and Sediment Risk Area.</li> <li>• Farm visits following Land Management Advisor workshop for farmers to learn more about mahinga kai and requirements for land use consents and wetland stock exclusion have been completed for all farms and larger lifestyle blocks.</li> <li>• Swimmable Selwyn at Coes Ford: Approximately 95% of the properties within Snake Creek, McGraths Creek and Silverstream catchments have been visited by Land Management Advisors to assist landowners with GMP and to map potential areas of e-coli source.</li> </ul>

	<p>rūnanga and young people.</p>	<ul style="list-style-type: none"> <li>• Biodiversity projects funded through Immediate Steps are on track including mudfish protection in Haldon Pastures (consented for work to commence in January), collaboration with Fish and Game around Snake Creek restoration project, Silverstream projects associated with mahinga kai protection and enhancement, Black Hills wetland extension project and mudfish protection sites in CPW catchment.</li> <li>• Compliance, monitoring, and enforcement programme in place for 'Regionally Significant' Consents, water use consents and zone priorities.</li> <li>• Working group through the Zone Committee is exploring and identify future projects for the Selwyn-Waikirikiriri River. Mid to long term solutions to reduce <i>E. coli</i>, sediment and improve mahinga kai, biodiversity and recreational opportunities with key partners are being identified.</li> <li>• Selwyn Waihora Youth Zone Committee project - Ongoing project to improve awareness among EnviroSchools students and Zone Committee members of the benefits of engaging young people.</li> </ul>
<p><b>Ashburton</b></p>	<p><b>Environmental Infrastructure:</b> Maintaining oversight for two projects as part of Solutions Package for the Hinds catchment.</p> <p><b>Drainage and Food Protection:</b> Focus on Hinds Drains and Carters Creek.</p> <p><b>Farming at GMP:</b> visiting farms to advise on GMP.</p> <p><b>Consent review process</b> for consents linked to the Ashburton/Hakatere River.</p>	<ul style="list-style-type: none"> <li>• Managed Aquifer Recharge (MAR) Governance group is currently developing a business case for a catchment-scale groundwater replenishment scheme for the Hinds Catchment.</li> <li>• Hinds River Recharge site was officially opened in late September with 600 native plantings and the first release of water.</li> <li>• New monitoring focus around community drinking water protection zones initiated in zone.</li> <li>• Environment Canterbury began water quality monitoring of Carters Creek.</li> <li>• Environment Canterbury is following up with farmers in Hinds catchment who require a land use consent. campaign is proposed to be completed by early 2019.</li> <li>• The Hinds Drains Community Monitoring Project has released an update on nitrate concentrations in the catchment's waterways.</li> <li>• At its November meeting the Zone Committee discussed whether to recommend a consent review process for consents linked to the Ashburton/Hakatere River, with the aim of bringing minimum flow requirements in line with the Ashburton/Hakatere River Flow Plan. Further work was sought before any recommendation could be made. The Zone Committee will hold its next workshop on 26 February.</li> <li>• Continuing to support a range of projects to improve water quality in key waterways including Carter Creek, extension of Ashburton River/Hakatere springs survey to be reported on in 2019.</li> <li>• Consultation is underway on the Ashburton/Hakatere River mouth management strategy. A draft strategy is expected April 2019 with a final version by June 2019.</li> </ul>

<p><b>Orari-Temuka-Opihi-Pareora</b></p>	<p><b>RMA Planning:</b> ZIP addendum will be presented to Environment Canterbury and Timaru, Waimate and Mackenzie District Councils by the end 2018.</p> <p><b>Washdyke Lagoon:</b> enhancement and protection project.</p>	<ul style="list-style-type: none"> <li>• The timeframe for completion of the flow and allocation regime for the Opihi River was extended until December 2018. The final Zone Committee workshop was held in late November and the ZIPA presented to Councils in December.</li> <li>• Waitarakao/Washdyke lagoon and enhancement projection programme in partnership with rūnanga, Timaru District Council and the Department of Conservation. This includes a targeted programme for stormwater management at industrial sites in Washdyke alongside nutrient and water management by farmers in all tributary catchments. ## **Biodiversity in Canterbury – update and next steps**

### **Purpose**

1. This paper outlines a package of work to develop a collective approach to biodiversity management in Canterbury, including a refresh of the Canterbury Biodiversity Strategy. The aim of this work is to achieve better biodiversity outcomes for the region and ensure we are well positioned to respond to upcoming national policy changes.

### **Recommendations**

**That the Canterbury Mayoral Forum:**

1. **note central government’s intention to consult on:**
  - 1.1. **a New Zealand Biodiversity Strategy discussion document in May 2019**
  - 1.2. **a possible National Policy Statement on Indigenous Biodiversity in July 2019**
2. **note that regular updates will be provided to the Mayoral Forum on how national policy changes are progressing**
3. **note that refreshing commitment to the Canterbury Biodiversity Strategy and developing an implementation plan provides an opportunity:**
  - 3.1. **for territorial authorities to affirm biodiversity as a priority**
  - 3.2. **to align regional biodiversity work programmes**
  - 3.3. **to position Canterbury local government to respond to the changing national policy landscape**
4. **agree that the Mayoral Forum champion a refreshed commitment to the Canterbury Biodiversity Strategy and implementation plan**
5. **agree to consider a collaborative commitment towards halting the decline of biodiversity in the Canterbury Local Authorities’ Triennial Agreement for 2019–22.**

## Background

2. Our native flora and fauna are a taonga that does much to define us as a nation. Good progress is being made in some areas of biodiversity management throughout New Zealand, aided by effective new technology and greater public, corporate and philanthropic attention to and investment in the environment. But biodiversity is under threat and we are losing ground in many cases. Business as usual will not be good enough if we are to maintain our unique indigenous biodiversity.
3. The national policy context is changing. National biodiversity policy is gaining momentum, with the development of a **new national biodiversity strategy** and a draft **National Policy Statement on Indigenous Biodiversity (NPSIB)**.
4. The **Canterbury Biodiversity Strategy** (the Strategy), released in 2008, established a strategic approach to biodiversity in the region, with a vision to protect, maintain and restore Canterbury's indigenous biodiversity. The 19 signatories include Environment Canterbury, eight district councils, two central government departments, Te Rūnanga o Ngāi Tahu, and others. The Strategy sets out a series of goals and targets that aim to halt the decline of biodiversity across the region.

## A changing national context

5. The Department of Conservation (DOC) is leading development of a **New Zealand Biodiversity Strategy (NZBS)** in consultation with iwi, stakeholders and the public, to replace the existing national strategy which expires at the end of 2020, required by United Nations convention. The new biodiversity strategy is intended to provide an overarching guide to the many existing programmes, plans, participants and initiatives in biodiversity, to help align and direct these components towards collectively agreed goals. Public consultation on this is expected in May 2019.
6. In October 2018, Associate Minister for the Environment, Hon Nanaia Mahuta, released the Report of the Biodiversity Collaborative Group. This was a stakeholder-led group, established by the government, tasked with developing national level policy for indigenous biodiversity in the face of ongoing decline and an urgent need for action to reverse this. The Group's report includes a draft NPSIB and recommendations on complementary and supporting measures. The draft NPSIB is currently sitting with government officials for consideration and public consultation is expected in July 2019.
7. National policy statements sit at the top of the Resource Management Act 1991 hierarchy and can direct councils to amend regional policy statements and regional and district plans to give effect to the NPS. As currently drafted, the NPSIB requires district-wide identification and mapping of significant natural areas (SNAs) using standard criteria across land tenures, with SNAs identified by high and medium values. Terrestrial SNAs are to be identified by territorial authorities and other SNAs (including marine) identified by regional authorities.

8. Key opportunities to feed into these processes include through consultation on the NZBS discussion document, followed by the draft NPSIB. A new national strategy is expected to be finalised by December 2019, and a possible NPSIB in 2020.

## Canterbury context

9. Canterbury biodiversity management requires a co-ordinated approach from the many agencies and organisations with responsibilities for biodiversity, and from communities, individuals and landowners across the region. From a local government perspective, Environment Canterbury is focused on freshwater habitats and the coastal environment, while territorial authorities have the role of managing terrestrial habitats.
10. Environment Canterbury has recently engaged with the territorial authorities and all other signatories to the ten-year-old **Canterbury Biodiversity Strategy** to understand the value of the Strategy and thoughts on its future. Overall, the consensus from these discussions is that the Strategy's vision, goals and high-level targets are still relevant and the Strategy is valuable. However, it has been a challenge to give meaningful effect to the Strategy. Reasons for this include a change in political priorities, a lack of regional ownership, clarity on roles and responsibilities and lack of clear leadership, and, most of all, the lack of a clear implementation plan.
11. Through the Policy Forum, the Planning Managers Group is driving a process to refresh the Strategy, with Environment Canterbury providing the necessary co-ordination and support. Refreshing commitment to the Strategy provides an opportunity to address these challenges, ensuring the Strategy is fit for purpose to support positive biodiversity outcomes in the region. This process will focus on developing an implementation plan, with clearly defined roles and responsibilities. It will bring together biodiversity-related work across the region in a more strategic way to help achieve the goals of the Strategy and ensure alignment with other related regional programmes such as the Canterbury Water Management Strategy.
12. Another key implementation challenge that will need to be addressed through this process is the lack of a single point of ownership. The Strategy is a region-wide strategy, currently adopted by multiple stakeholders and there are likely to be more for whom it could be relevant. The Mayoral Forum is an option as the governance body to provide the necessary leadership to advance the Strategy, similar to the Canterbury Water Management Strategy.
13. Undertaking this process now will ensure we are joined up as a region, prioritising biodiversity in our work programmes and providing an opportunity to set ourselves up to respond to the changing national policy landscape. The Strategy refresh will be able to adapt as necessary to changes signalled by central government through national policy processes. A high-level timeline, including how the national processes fit in the Canterbury context, is provided in **Appendix A**.
14. The next review of the **Canterbury Regional Policy Statement (CRPS)** is scheduled to commence in 2020. Based on current timeframes for the NPSIB, any required changes to the CRPS will be considered during that review process. Districts that have recently

commenced district plan reviews will have opportunities to update draft planning provisions in response to national direction. Those districts that are well advanced in their plan review processes may need to undertake a targeted plan change process to align with the NPSIB and CRPS.

## **Role of the Mayoral Forum**

15. Refreshing commitment to the Strategy will require a co-ordinated effort from all stakeholders. The councils that are part of this Forum will need to work collaboratively to develop an implementation plan and regional funding approach, given the key role of councils in biodiversity management. For example, councils will need to consider funding approaches that reflect the public good elements of biodiversity, such as greater external investment in biodiversity on behalf of 'Canterbury Inc.'.
16. We propose that the Mayoral Forum be the champion for facilitating a refreshed commitment to the Strategy and its implementation plan. The timing of this process is intended to align with national policy work over the next two years.
17. Discussions are being held with other signatories and stakeholders, including Papatipu Rūnanga, on the best way for them to engage in the process and understand what role they may play into the future.
18. With the emerging importance of biodiversity, including at the national level, and the complementary roles of Environment Canterbury and territorial authorities in biodiversity management, we intend to provide regular biodiversity updates to the Mayoral Forum.
19. When the next triennial agreement is developed, we recommend that the Mayoral Forum consider including a collaborative commitment towards halting the decline of biodiversity in Canterbury.

## **Next steps**

20. An update on biodiversity, including how national policy changes are progressing, will be provided at the next Mayoral Forum meeting in May 2019.

## Appendix A: Indicative timeline – national and local biodiversity policy

### NON-REGULATORY:

#### New Zealand Biodiversity Strategy (NZBS):

Will set the overarching goals and priorities for biodiversity management in New Zealand

#### Canterbury Biodiversity Strategy (CBS):

Established a strategic approach to biodiversity in the region, with a vision to protect, maintain and restore Canterbury's indigenous biodiversity

### REGULATORY:

#### Draft National Policy Statement on Indigenous Biodiversity (NPSIB):

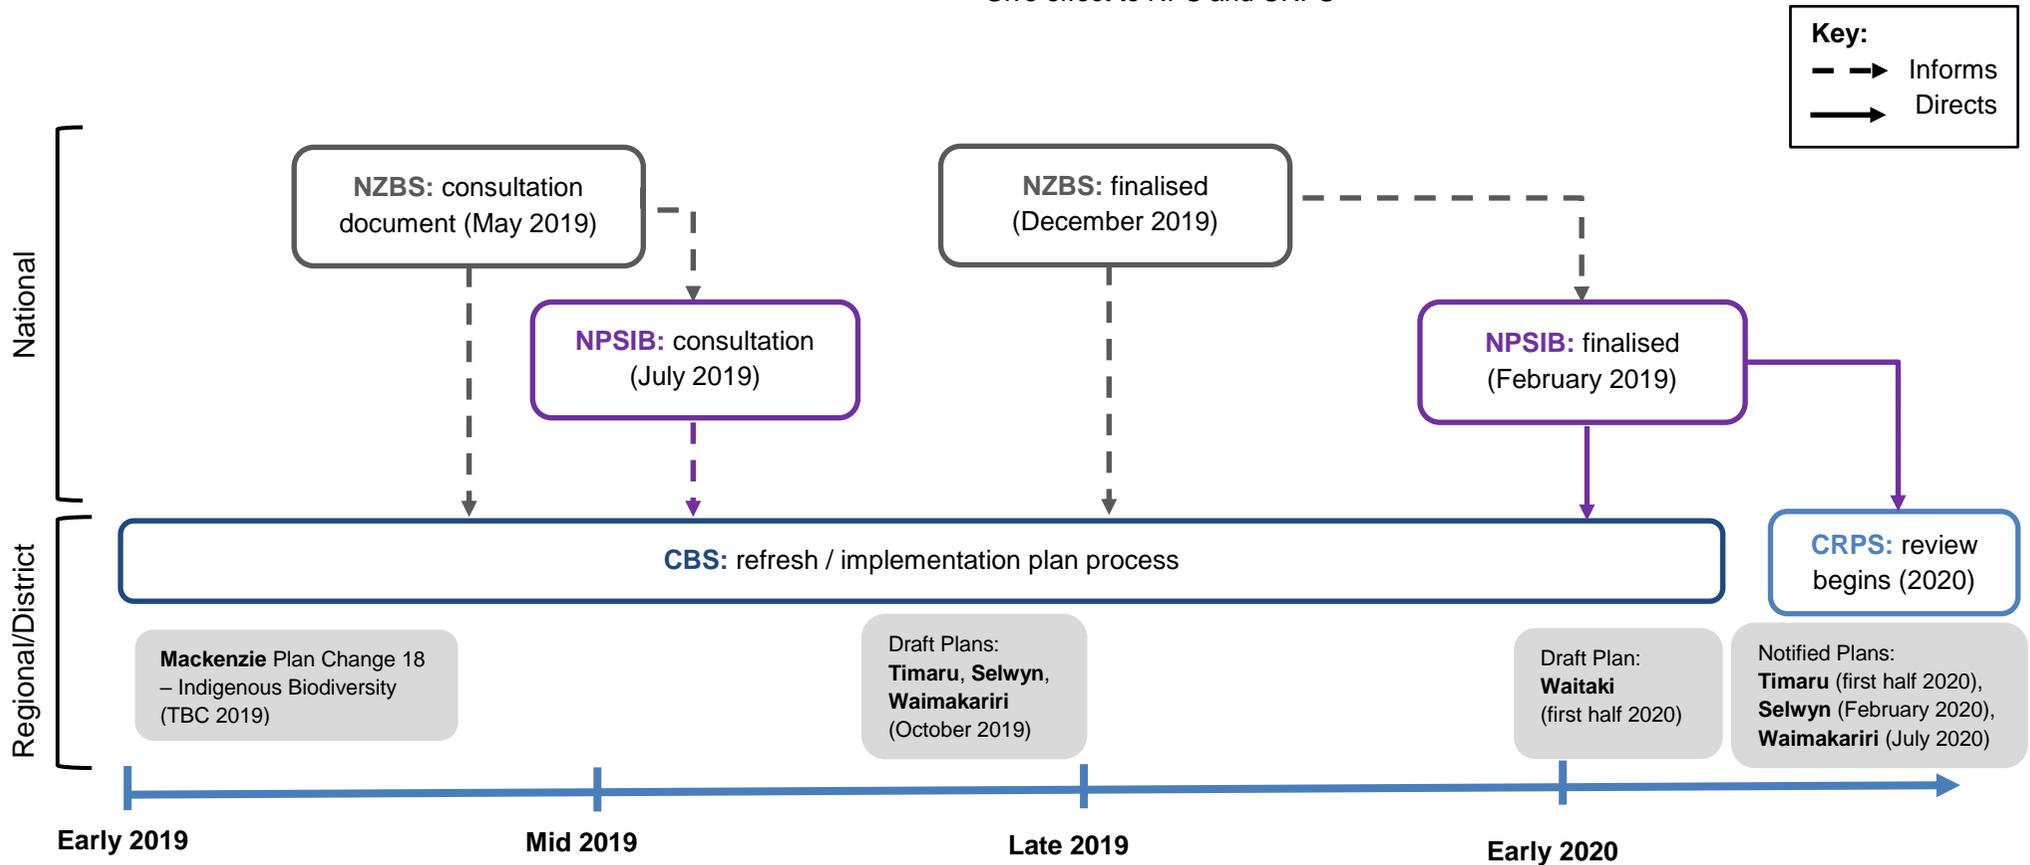

Sets out objectives and policies to manage natural and physical resources to maintain indigenous biodiversity

#### Canterbury Regional Policy Statement (CRPS):

Sets out objectives, policies and methods to resolve significant resource management issues facing the region, and to achieve the integrated management of the natural and physical resources of Canterbury

#### Regional/District Plans:

Give effect to NPS and CRPS

**Date:** 1 February 2019

**Presented by:** Bill Bayfield

## **Regional climate change think-tank**

### **Purpose**

1. This paper proposes to establish a regional climate change think-tank made up of Mayors/Chair and Chief Executives. This proposal was discussed by Chief Executives at their 21 January meeting.

### **Recommendations**

**That the Canterbury Mayoral Forum:**

1. **agree to a small representative group of Canterbury Mayors/Chair and Chief Executives to form a think-tank on climate change**
2. **approve the attached draft Terms of Reference**
3. **appoint members to the Regional Climate Change Think-tank**

### **Background**

2. Climate change is a high priority for both local and central government, and poses challenges that must be addressed at the local, regional and national level.
3. In light of this, the Canterbury Mayoral Forum established the Canterbury Climate Change Working Group in May 2017. The working group is now firmly established and working effectively.

### **Regional response**

4. Strong signals from central government (Zero Carbon Bill, the Interim Climate Change Committee) along with the challenges faced by councils in Canterbury indicate the growing importance of climate change and the impacts it presents. We expect increased direction on climate change from Central government, and we need to be ready to respond to this.

5. The proposed think tank will provide support to the working group by keeping a watching brief on central government direction and keeping the working group informed about political dimensions of the issue. This will be relevant in the context of the Canterbury Regional Economic Development Strategy, as most workstreams will be affected in some way by climate change in the future.

## **Next steps**

6. If Mayors agree to the establishment of a think-tank, nominations for representatives should be taken at today's meeting.
7. The secretariat will support nominated Mayors/Chair and Chief Executives in organising an initial meeting of the group. An initial meeting could take place during the first quarter of 2019.

## **Attachments**

- Draft Terms of Reference – Regional Climate Change Think-tank

***Note – At their 1 February meeting, the Canterbury Mayoral Forum agreed to change the name of the 'Regional Climate Change think-tank' to 'Regional Climate Change Steering Group'. The attached Terms of Reference reflect this change.***

# Terms of Reference

## Canterbury Regional Climate Change Steering Group

*As agreed by the Canterbury Mayoral Forum on 1 February 2019*

### Background and purpose

1. The Canterbury Mayoral and Chief Executives Forum agreed to the formation of the Canterbury Regional Climate Change Steering Group in January/February 2019 to progress thinking and planning across the region on adaptation to and mitigation of climate change.
2. The purpose of the Regional Steering Group is to offer political support to the regional working group and maintain a watching brief for the Mayoral Forum.
3. The Regional Steering Group will report regularly to the Canterbury Chief Executives Forum and Mayoral Forum on an 'as required' basis when issues require further communication, input and/or discussion.

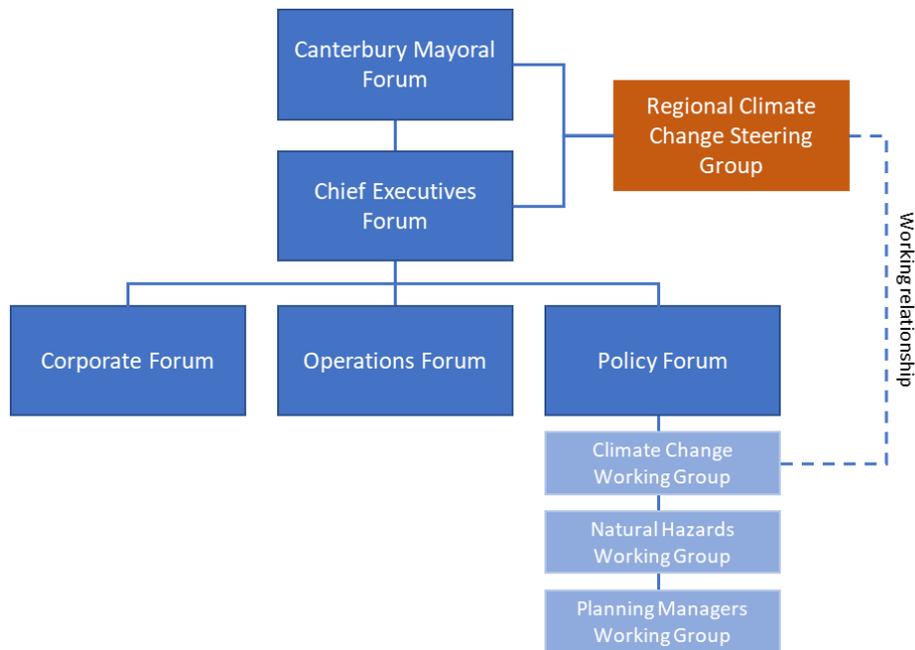

Figure 1: Proposed Climate Change Steering Group reporting line

### Scope

4. Matters subject to the Regional Steering Group's consideration include:
  - providing support to the working group by keeping a watching brief on central government direction
  - act as an additional sounding board for Local Government climate change issues, initiatives and advice from across the region
  - keeping the working group informed about political dimensions of the issue

- assist with ensuring a consistent Canterbury tailored message with Territorial Authorities and the Regional Council 'singing from the same song sheet' with regards to climate change
- advocate for climate change initiatives, helping provide a united voice from Canterbury Councils to be leaders in national conversations on climate change as well as support regional sector conversations.

## **Membership and operation of the Regional Steering Group**

5. Membership will include a total of six to eight members from Canterbury council's. Mayors/Chair and Chief Executives.
6. Membership should ensure that there is organisational representation from both territorial authorities and the regional council. Membership should also ensure a balance of Mayors/Chair and Chief Executives, with no more than four Chief Executives and four Mayors/Chair represented.
7. The Chair of the Regional Steering Group will be appointed by the members of the Steering Group.
8. The Regional Forums Secretariat will work with the Chair of the Regional Steering Group to provide secretariat support for the group, maintain relationships and ensure that the group is functioning under these Terms of Reference.
9. The Regional Steering Group will meet in person two to three times annually, or when they deem it necessary, to:
  - Discuss central government initiatives and their impact on Canterbury
  - Develop a Canterbury perspective (where required and feasible) to central government directives and developments
  - Engage with the provision of information to ensure that it is relevant to Cantabrians.
10. The Regional Steering Group Chair will work alongside the Climate Change Working Group, ensuring alignment with the Climate Change working group's work programme, as well as maintain links with other relevant working groups/forums as needed.
11. The Regional Steering Group will maintain political oversight and support of climate changes issues, while the Climate Change Working Group will continue to provide technical advice to councils and the Canterbury Regional Forums.
12. The Regional Steering Group Chair shall report to the Canterbury Chief Executives and Mayoral Forums on a six-monthly basis.

## **Changes to the Terms of Reference**

13. The Regional Steering Group may recommend changes to the Terms of Reference to the Chief Executives Forum and Mayoral Forums, to be approved by the Mayoral Forum.
14. The Chief Executives will review the Terms of Reference after the first year, and then every three years for agreement by the Mayoral Forum.

**Date:** 1 February 2019

**Presented by:** Jim Palmer, Chair, Chief Executives Forum

## **Regional forums report**

### **Purpose**

1. This paper reports on the work of the Chief Executives Forum since December 2018.

### **Recommendations**

**That the Canterbury Mayoral Forum:**

1. **receive the report and take it as read**
2. **note the attached progress reports (11.1 –11.3) on implementation of the three-year work programme, CREDS projects funded from the Regional Growth Programme and the Provincial Growth Fund, and the CREDS pipeline report.**

### **Chief Executives Forum**

2. The Chief Executives Forum met on 21 January 2019. Key agenda items were:
  - discussing draft papers on Biodiversity in the Canterbury region, the interim report on the CWMS Fit for the Future project, and the proposed climate change regional think-tank (items 4, 5 and 6 respectively in today's agenda)
  - initial discussions on how the next iteration of the Canterbury Regional Economic Development Strategy could be framed up for discussion at the Mayoral Forum working dinner on 31 January 2019
  - collaborative funding for regional activities – how working groups under the Canterbury Regional Forums structure are resourced, and whether there is a need for additional funding from councils to support collaborative activities. Chief Executives requested further advice on how a regional collaborative fund could be levied for discussion at their next meeting.
  - updates on implementation of the three-year work programme, CREDS projects funded from the Regional Growth Programme and the Provincial Growth Fund, and the CREDS pipeline report – attached as agenda items 11.1 – 11.3.
3. The first full round of regional forum meetings for 2019 starts on Monday 25 February, when the Corporate and Operations Forums meet.

## Mayoral Forum three-year work programme 2017–19 – as at 8 January 2019 (updates in red)

b. Policy development	31 May 2018	<ul style="list-style-type: none"> <li>• develop constructive policy options that have potential to work for Canterbury and the South Island without compounding Auckland challenges</li> </ul>	Lianne Dalziel	Secretariat with ADC, CECC, CNZ	<ul style="list-style-type: none"> <li>• policy framework developed with CECC and CNZ</li> <li>• policy framework circulated to Mayors, CEs and Policy Forum for comment</li> <li>• CECC hosted Minister of Immigration 23 Apr 2018</li> <li>• engagement with officials occurred in June 2018</li> <li>• in July 2018, Ministers declined to meet with a Canterbury deputation at this time</li> <li>• discussion paper published on Mayoral Forum website</li> </ul>

WHAT	DUE	TASK	SPONSOR	LEAD	STATUS / NEXT STEPS
<b>6. Value-added production</b>					
<i>Objective – Planning and consenting processes, and infrastructure managed by local government enable value-added production in Canterbury</i>					
a. Improve productivity (demand side)	30 Sep 2022	<ul style="list-style-type: none"> <li>investigate new value-add, market opportunities that Canterbury is placed to take advantage of – e.g. niche markets, particularly in China and SE Asia</li> <li>consult and engage with South Island economic development agencies on creating a virtual economic policy unit/function, to support economic development strategy and implementation across the South Island</li> </ul>	Craig Rowley	CNZ	<ul style="list-style-type: none"> <li>for discussion with ChristchurchNZ and preparation of business case and funding agreement August 2017</li> <li>funding agreement received Dec 2017</li> <li>project scoped and agreed with MBIE and ChristchurchNZ</li> <li>contract agreed with ChristchurchNZ and work underway</li> <li>contract for stage 1 research awarded; first report completed along with all district workshops</li> <li>regional workshop to validate draft Roadmap and / or change future direction / opportunities, was held at Lincoln on 17 October</li> <li><b>Final Stage one report including Roadmap (outlining opportunities and next steps) has been adopted by Mayoral Forum at their meeting on 7 December 2018</b></li> <li><b>Implementation of Roadmap under action</b></li> </ul>
b. High-value manufacturing (supply side)	30 Sep 2021	<ul style="list-style-type: none"> <li>Co-ordinate across the Canterbury Tertiary Alliance and with the Lincoln Hub, CRIs, Callaghan Innovation and NZ Trade and Enterprise to connect industry needs to research and accelerate knowledge translation to high-value production and manufacturing for export</li> </ul>	Craig Rowley	UC	<ul style="list-style-type: none"> <li>Preparation of business case and funding agreement August 2017</li> <li>funding agreement received Dec 2017</li> <li>project scoped and agreed with MBIE and UC</li> <li>contract let with UC and work underway</li> <li>contract for stage 1 research awarded; first report completed along with all district workshops</li> <li>regional workshop to validate draft Roadmap and / or change future direction / opportunities, was held at Lincoln on 17 October</li> <li><b>Final Stage one report including Roadmap (outlining opportunities and next steps) has been adopted by Mayoral Forum at their meeting on 7 December 2018</b></li> <li><b>Implementation of Roadmap under action</b></li> </ul>

## 7. Regional visitor strategy

Objective – Grow sustainable tourism that focuses on the high-end market, encourages a wider seasonal 'spread', disperses visitors across the region and South Island, and keeps them here longer.

<p>a. Business case for rail passenger services south of Christchurch</p>	<p>31 Dec 2018</p>	<ul style="list-style-type: none"> <li>work with KiwiRail on assessment of the business case for reintroducing rail passenger services south of Christchurch</li> </ul>	<p>Damon Odey</p>	<p>Aoraki Development</p>	<ul style="list-style-type: none"> <li>initial project scoping 28 July 2017</li> <li>preparation of business case and funding agreement August 2017</li> <li>funding confirmed October 2017</li> <li>project discussed with KiwiRail and MoT Nov 2017</li> <li>workshop held with KiwiRail, MBIE, NZTA, MoT and Treasury March 2018; scope refined; looking for a promoter to organise rail journeys to sports fixtures and other major events – KiwiRail will not themselves develop this service but happy to work with charter service operators</li> <li>media story ran in Press 20 April 2018</li> <li>project refined with agreement from MBIE – contract awarded for research on potential demand and work underway</li> <li>Research is evidencing market interest in a tourism route linking Christchurch to Dunedin focused around cycle tourism, visiting cruise ships, and visitors looking to complete a 'South Island loop' linking up with popular tourist destinations</li> <li>Meeting with Dunedin Rail Services. They are open to opportunity (on the basis that it is commercially viable and has positive benefits for Dunedin and Otago) and will assist consultants with validation research</li> <li>Stage one report, with options and recommendations, received. Agreement to proceed to stage two has been agreed by the project manager with reference to the Project Mayor Sponsor.</li> </ul>
<p>b. South Island destination management plan</p>	<p>31 Dec 2019</p>	<ul style="list-style-type: none"> <li>invite South Island Mayors and Chairs to work together to develop a South Island destination management plan</li> <li>design and implement project; seek funding from the Provincial Growth Fund for development of the plan, then agreed priorities for central government partnership in infrastructure investment</li> </ul>	<p>Sam Broughton</p>	<p>Secretariat with CNZ, MBIE, NZTA, DoC, Tourism NZ</p>	<ul style="list-style-type: none"> <li>support in principle from all South Island Mayors</li> <li>all-of-government support offered by MBIE, NZTA, DoC and Tourism NZ</li> <li>terms of reference and RFP agreed by Inter-regional Steering Group</li> <li><b>Withheld under LGOIMA s9(2)(ba)</b></li> <li>inter-regional steering group meeting was held 21 November in Wellington. Follow-up actions completed including development of project portal for access by Inter regional steering group members</li> <li>RFP published with closing date for applications by 20 January 2019</li> </ul>

**INFRASTRUCTURE, LOCAL PUBLIC SERVICES AND REGULATORY FUNCTIONS (Chief Executives Forum)**
**8. Infrastructure**

a. Strategic assessment of 3 Waters	tbc	Picks up and supersedes earlier work initiated in 2016 <ul style="list-style-type: none"> <li>stocktake current state of 3 Waters management across the region, building on existing work by the Drinking Water Reference Group and Stormwater Forum</li> <li>build consensus on strategic intent – where we want to get to, in relation to national direction and developments</li> <li>identify key risks, challenges and barriers</li> <li>recommend priority actions for CEF consideration</li> </ul>	CEF / Bede Carran	COF	<ul style="list-style-type: none"> <li>(re-)commissioned by CEF 12 Feb 2018</li> <li>CEF agreed 30 Apr 2018 to extend the terms of reference of the Canterbury Drinking Water Reference Group to lead work on 3 Waters</li> <li>CMF highlighted as a priority May 2018 and wrote to Minister of Health urging release of Government Response to the Havelock North Drinking Water Inquiry</li> <li>reported to and discussed by CEF 6 Aug 2018 and CMF 7 Sep</li> <li><b>Secretariat continuing to co-ordinate work on Canterbury response to government proposals</b></li> </ul>
-------------------------------------	-----	---	-------------------	-----	---

**9. Collaboration and shared services**

a. Natural hazard risk management	Ongoing	<ul style="list-style-type: none"> <li>monitor natural hazards management reform (including climate change impacts, mitigation and adaptation) and possible emergence of an NPS in 2018</li> <li>prioritise tasks and project leads by Dec 2016 and report progress by May 2017</li> <li>report annually to CEF</li> </ul>	CEF	Bill Bayfield	<ul style="list-style-type: none"> <li>regional approach to risk signed off by all councils in May 2016</li> <li>reported to CEF 8 May 2017</li> <li>group is incorporated in and reports quarterly to COF</li> <li>report to CEF by 31 May 2018 – postponed to November 2018</li> </ul>
b. Procurement of business inputs, e.g. insurance, digital transformation and 'infrastructure as a service'	Ongoing	<ul style="list-style-type: none"> <li>identify shared insurance/brokerage options</li> <li>commission a technology working group with Spark, CCL and Revera and refine terms of reference to scope opportunities for a collaborative platform (mobility, networking, cloud services, service management, technology leadership) to deliver better local services ('infrastructure as a service')</li> </ul>	CEF	Jim Palmer Hamish Dobbie	<ul style="list-style-type: none"> <li>awaiting outcome of LGNZ review of risk management and insurance arrangements – in abeyance as at 31 July 2017</li> <li>technology working group met to agree terms of reference 7 Oct 2016; reported to CEF 31 Oct 2016; met 4 Aug 2017</li> <li>reported to CEF 30 Oct 2017; to report back by June 2018</li> <li>postponed to November 2018</li> <li><b>report received by CEF 5 November, to be continued by Finance managers working group under CCF.</b></li> </ul>

**10. Performance of regulatory functions**

a. Engineering services and common standards	Ongoing	<ul style="list-style-type: none"> <li>investigate opportunities to increase consistency of engineering standards across the region (Engineering Codes of Practice), in order to:                             <ul style="list-style-type: none"> <li>improve consistency across the region, particularly in relation to subdivisions</li> <li>help contain contract prices (more consistent specifications aid designers and contractors)</li> <li>reduce administrative effort/cost of maintaining the standards</li> <li>share knowledge, systems and resources between councils.</li> </ul> </li> </ul>	COF	Wayne Barnett / CEMG	<ul style="list-style-type: none"> <li>CEMG discussed 11 Oct 2016</li> <li>CEF discussed 31 July 2017 and will take up with COF Oct 2017 for report to CEF 30 Oct 2017</li> <li>commissioning clarified at COF 16 Oct 2017</li> <li>reported to CEF 30 Apr 2018: CEMG has commissioned an appraisal of Canterbury engineering (subdivision) standards April 2018</li> <li><b>CEMG received consultation report Sept 2018</b></li> <li><b>CEMG to report back to COF and CEF first half 2019</b></li> </ul>
--	---------	--	-----	----------------------	--

ITEMS THAT ARE COMPLETE OR ESTABLISHED AS CONTINUING WORK PROGRAMMES					
CREDS implementation management	Ongoing	<ul style="list-style-type: none"> <li>provide contract management across all work programmes</li> <li>support lead Mayors with CREDS implementation</li> <li>monitoring and reporting</li> </ul>	Lianne Dalziel	ECan	<ul style="list-style-type: none"> <li>funding agreement signed</li> <li>Warren Gilbertson appointed from 8 Jan 2018</li> <li>PGF application seeking funding to extend term of Project Manager's contract expiry date beyond 31 March 2019, has been approved by MBIE - awaiting written confirmation.</li> </ul>
CREDS monitoring	Ongoing	<ul style="list-style-type: none"> <li>design a reporting template to improve communication and impact assessment further develop CREDS outcome indicators (with MBIE, MSD and MoE)</li> </ul>	Lianne Dalziel	Secretariat / ChristchurchNZ	<ul style="list-style-type: none"> <li>template designed and ready for 24 Aug report 2017</li> <li>preparation of business case and funding agreement August 2017</li> <li>funding confirmed and received</li> <li>project substantially complete; transport indicators to be developed for Feb 2018 report</li> <li>agreed with ChristchurchNZ to produce this report in Jun and Nov 2018, with added transport indicators</li> <li><b>design complete</b></li> <li><b>continuing work programme</b></li> </ul>
Canterbury Drinking Water Reference Group	Ongoing	<ul style="list-style-type: none"> <li>in response to the Havelock North drinking water contamination incident: report on the vulnerability of drinking water supply in Canterbury, note contingency plans and recommend any amendments to current practice as may be required</li> </ul>	COF	Bill Bayfield	<ul style="list-style-type: none"> <li>interim report to CEF 31 Oct 2016</li> <li>progress report to CEF 3 Feb 2017</li> <li>reported to CMF 26 May 2017</li> <li>submitted to Inquiry 21 July 2017</li> <li>reporting to COF from 2018</li> <li>to report to CMF by 31 May 2018</li> <li><b>continuing work programme</b></li> </ul>

Valuation and rating services	30 Jun 2018	<ul style="list-style-type: none"> <li>establish a valuation and rating programme management group to develop and lead a programme of work to further evaluate opportunities for shared valuation and rating services and progress them</li> </ul>	CEF	David Ward / Bede Carran	<ul style="list-style-type: none"> <li>initial investigation (Ernst &amp; Young) reported to CEF 29 August 2016 and funding approved for stage 2</li> <li>reported to CEF 31 Oct 2016, 3 Feb 2017, 31 July 2017, 30 Oct 2017, 12 Feb 2018, 30 April 2018</li> <li>CEF agreed 30 Apr 2018 not to proceed with expanding an existing system or introducing a new system; Rating Officers Group (ROG) to take a collaborative approach to enhance valuation and rating services and mitigate identified risks</li> <li>Mayoral Forum agreed May 2018 that ROG report to Corporate Forum</li> <li><b>continuing work programme</b></li> </ul>
Public Records Act (PRA) Information and Records Management	Ongoing	<ul style="list-style-type: none"> <li>establish a regional PRA Executive Sponsors Working Group to facilitate regional leadership and support for strategic information and records management across the Canterbury region <ul style="list-style-type: none"> <li>establish working group structure and administration, and finalise draft ToR for report to CCF by 12 March</li> <li>final ToR approved by CEF 30 April 2018</li> </ul> </li> <li>raise the profile of PRA obligations across CMF and CEF</li> <li>by 31 July 2018, develop a continuing work programme for 2018–19 for information and records management by Canterbury councils</li> </ul>	CCF	David Ward	<ul style="list-style-type: none"> <li>proposal and draft terms of reference discussed and endorsed by CCF 29 Jan 2018 and CEF 12 Feb 2018</li> <li>working group established and meetings underway</li> <li>final terms of reference approved by CEF 30 Apr 2018</li> <li><b>now a continuing work programme</b></li> </ul>
Building control and regulatory co-ordination	Ongoing	<ul style="list-style-type: none"> <li>investigate and progress joint processing and shared resourcing standards, and shared regulatory provision (including food and alcohol licensing)</li> </ul>	COF	Hamish Dobbie / Andrew Dalziel	<ul style="list-style-type: none"> <li>this is being progressed in the north and south of the region, with MBIE</li> <li>MBIE has discontinued this project</li> <li>CEF reviewed 31 July 2017 and will discuss with Operations Forum in Oct 2017 for report to CEF 30 Oct 2017</li> <li>CEF agreed 30 Oct 2017 to establish a working group of senior regulatory managers (RMA) reporting to the Policy Forum</li> <li>Compliance, Monitoring and Enforcement working group met 2 Feb 2018 and reported to CPF (non-RMA regulatory managers report to COF)</li> <li><b>now a continuing work programme</b></li> </ul>

# CANTERBURY REGIONAL ECONOMIC DEVELOPMENT STRATEGY

## CANTERBURY MAYORAL FORUM

### PROGRESS REPORT: January 2019

VISION .... A STRONG REGIONAL ECONOMY WITH RESILIENT, CONNECTED COMMUNITIES AND A BETTER QUALITY OF LIFE FOR ALL

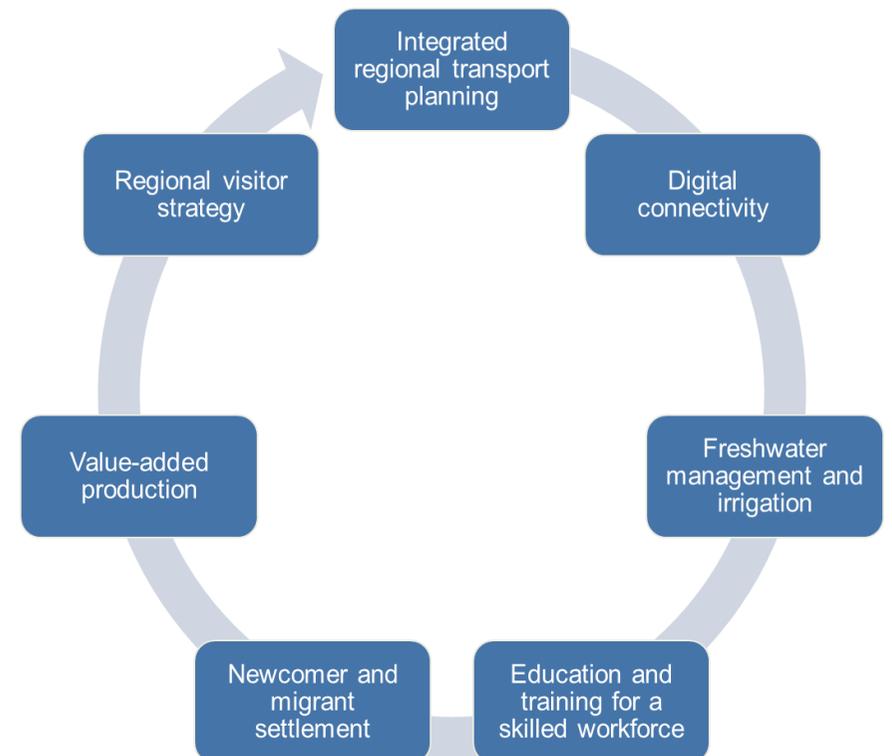

#### Objectives: 2017 - 19

- Position the Canterbury region for long-term, sustainable prosperity
- Complete/progress earthquake recovery and rebuild in greater Christchurch and in North Canterbury, attract and retain businesses, capital, skilled workers, students and visitors
- Strengthen and capitalise on interdependencies between the Christchurch and Canterbury economies.

#### The story of the CREDS

Advocating on economic and social development opportunities for Canterbury was a commitment in the Canterbury Local Authorities' Triennial Agreement for 2013–16. This commitment has been re-affirmed in the Triennial Agreement for 2017–19.

Key drivers are demographic trends, particularly the region's ageing population, and a sense of urgency about positioning the region's underlying economy for when earthquake recovery and rebuild cease to inflate economic activity and employment.

## **Seven priority work programmes**

In February 2017, the Mayoral Forum and CREDS reference group re-affirmed the relevance and strategic importance of the seven CREDS work programmes initiated in 2015.

### **INFRASTRUCTURE, REGULATION AND INVESTMENT**

- 1. Integrated regional transport planning and infrastructure investment**
- 2. Digital connectivity: extension and uptake of fast broadband in rural areas**
- 3. Freshwater management and irrigation infrastructure.**

### **HUMAN AND SOCIAL CAPITAL**

- 4. Education and training for a skilled workforce**
- 5. Newcomer and migrant settlement: skilled workers, cohesive communities.**

### **WORKING WITH INDUSTRY**

- 6. Value-added production**
- 7. Regional visitor strategy**

Please note that all updated information since the last CREDS Progress Update (September 2018) is highlighted in red.

**Project overview: 14 total projects, 14 projects have commenced, 4 projects completed, 0 projects parked, 0 projects yet to commence.**

**Indicator:**

On Track

Some issues but not critical

Substantive issues with remedial action required.

PROJECT	LEAD AGENCY / AMOUNT	KEY OUTCOMES / DELIVERABLES	UPDATE AND NEXT STEPS (UPCOMING MILESTONES)	INDICATOR	RECOMMENDED ACTION
<p><b>1. REGIONAL TRANSPORT</b></p> <p>Strategic policy analysis and advice to accelerate progress on work programme priorities and co-ordinate a stocktake of the resilience of the roading network in Canterbury</p> <p><b>Timeline</b> <b>30 September 2018</b></p>	<p><b>Environment Canterbury</b></p> <p><b>\$100,000</b></p>	<p>The CREDS Regional transport work programme objective is to ensure that integrated transport planning occurs across all modes (air, rail, shipping and road transport) that:</p> <ul style="list-style-type: none"> <li>prioritises a resilient transport network</li> <li>enables the efficient movement of people and freight into, out of and within the Canterbury region</li> <li>improves social connectedness and wellbeing, supports visitor strategies and improves road safety.</li> </ul>	<ul style="list-style-type: none"> <li>Darren Fidler appointed Sep 2017</li> <li>Monitoring indicators agreed with Regional Transport Committee (RTC) and are now published quarterly on the Environment Canterbury website <a href="https://www.ecan.govt.nz/your-region/living-here/transport/regional-transport-planning/regional-land-transport-scorecard/">https://www.ecan.govt.nz/your-region/living-here/transport/regional-transport-planning/regional-land-transport-scorecard/</a></li> <li>Freight modal shift phase 1 (scale of opportunity) complete.</li> <li>Freight modal shift phase 2 (assessment of opportunity and development of action plan) continuing, delivered by a Stantec led consortium. Project elements completed include industry engagement (25+ stakeholders), issues and opportunities documented, environmental cost of each mode in NZ analysed, case studies for further analysis developed with project completion due December 2018. Project co-funded across South Island regional councils.</li> <li>Resilience stocktake – collaboration with NZTA, NIWA, Lifelines group, AF8 group and local authorities has identified a number of options for understanding the level of exposure to hazards and the consequence of this exposure across Canterbury. Working with NZTA and local authorities to establish the most appropriate way in which to collate this information for the transport networks in the region (options include use of Canterbury Maps, NZTA MapHUB, RiskScape).</li> <li>The RTC will continue to explore how to fully implement the GPS, with it now being unlikely that the signalled</li> </ul>		<p>Not required.</p>

			<p>second stage GPS will be produced. Considerations include the balance of transport activities across the region and the fit with the strategic priorities in the GPS, as well as taking advantage of a Targeted Enhanced Funding Assistance Rate from NZTA (NZTA funding 75.5% of investment totals compared to the standard 51%).</p> <ul style="list-style-type: none"> <li>NZTA has taken up South Island RTC Chairs tourism initiative, and work is complete on a visitor flows study undertaken by an independent researcher – see <a href="https://www.nzta.govt.nz/assets/resources/650/650-understanding-current-and-forecast-visitor-flows-to-the-south-island.pdf">https://www.nzta.govt.nz/assets/resources/650/650-understanding-current-and-forecast-visitor-flows-to-the-south-island.pdf</a>. This work will be aligned with the Mayoral Forum’s work on a South Island Destination Management Plan.</li> </ul>		
<p><b>2. YOUTH TRANSITIONS</b></p> <p>Expand pilot programmes developed by Aoraki Development to support youth transitions to further education, training and employment in South Canterbury and Ashburton</p> <p><b>Timeline</b> <b>31 December 2018</b></p>	<p><b>Aoraki Development</b></p> <p><b>\$130,000 plus up to \$100,000 for web/app</b></p>	<p>The CREDS Education and training work programme objectives are:</p> <ul style="list-style-type: none"> <li>business, education and local government sectors are aligned, working together to make Canterbury a great place to study, live and work</li> <li>Canterbury has an appropriately skilled and educated workforce</li> <li>education and training institutions deliver an integrated education programme that maximises benefits to the institutions and to Canterbury.</li> </ul> <p>Funding has been used to engage a contractor for 12 months to facilitate and co-ordinate (in partnership with MSD and MoE) an expansion (with evaluation) of programmes piloted in Timaru to at least one other centre, working with the region’s businesses, Aoraki Development and other economic development agencies in</p>	<ul style="list-style-type: none"> <li>Contract with Ministry of Social Development agreed December 2017. Milestone reporting occurs directly between fundholder Ministry of Social Development and supplier Aoraki Development.</li> </ul> <p><b>Year One Achievements</b></p> <ul style="list-style-type: none"> <li>Significant commitment to date from schools – 4,815 interactions with students (yr 9 -13 students, parents, teachers and careers advisors).</li> <li>208 businesses committed – across variety of local businesses and industry sectors.</li> <li>25 yr 12/13 students now with transition plan with 20 matched with fully inducted mentors. Working with remaining five Waimate High School students to match with Waimate based mentors.</li> <li>Recent event highlight – 650 students from 9 South Canterbury secondary schools attended an Employment Expo in Temuka.</li> <li>Nationwide exposure of this project in the September issue of the Education Gazette – refer “Career Pathways” article.</li> <li>Activity to date has resulted in gateway placements, work experience, dual pathways, internship, part &amp; full-time employment.</li> </ul>		Not required.

		Canterbury, secondary schools, tertiary education organisations, chambers of commerce, and businesses, and leveraging MSD's existing work with Te Rūnanga o Ngāi Tahu on NEET issues.	<ul style="list-style-type: none"> <li>Valued relationships established with Ara, Ministry of Social Development, Ministry of Education, and Skills.</li> </ul> <p><b>Year Ahead</b></p> <ul style="list-style-type: none"> <li>Rollout into Ashburton progressing with Mayor and two secondary schools.</li> <li>Operational funding recently extended for 2018/19 year by Ministry of Social Development.</li> <li>MyNextMove website development almost complete with soft launch to selective group of students/parents and career advisors in November. Benefits include: <ul style="list-style-type: none"> <li>personalised logins &amp; transition plans</li> <li>local business and industry info and connections</li> <li>events calendar and survey capability</li> <li>data collection &amp; monitoring i.e. Ministry of Social Development, Ministry of Education, TEC</li> <li>mobile interactive.</li> </ul> </li> </ul>		
<p><b>3. CONTRACT MANAGEMENT – CREDS PROJECT MANAGER</b></p> <p>Provide contract and project management across all work programmes and support lead Mayors with CREDS implementation</p> <p><b>Timeline</b> <b>31 March 2019</b></p>	<p><b>Environment Canterbury</b></p> <p><b>\$150,000</b></p>	<p>Key outcomes:</p> <ul style="list-style-type: none"> <li>Provide contract and project management across all Canterbury Mayoral Forum work programmes and</li> <li>Support lead Mayors with CREDS implementation.</li> </ul>	<ul style="list-style-type: none"> <li>CREDS Project Manager commenced role on 8 January 2018.</li> <li>PGF Application seeking funding to extend term of Project Manager's contract expiry date beyond 31 March 2019, has been verbally confirmed by MBIE – still awaiting written confirmation.</li> </ul>		Not required.

<p><b>4. INDICATORS MONITORING REPORTING</b></p> <p>Develop outcomes / indicators and create a publication design that can be maintained and updated for further publications</p> <p><b>Timeline</b> <b>31 December 2017</b></p>	<p><b>Christchurch NZ</b></p> <p><b>\$10,000</b></p>	<p>This funding will be used to achieve the following:</p> <ul style="list-style-type: none"> <li>further develop indicators for CREDS work programmes, specifically for Regional transport (with NZTA)</li> <li>design a template for more effective presentation and communication of CREDS indicators.</li> </ul>	<ul style="list-style-type: none"> <li>Complete.</li> </ul>		<p>Not required.</p>
<p><b>5. DIGITAL CONNECTIVITY: 4G MOBILE AND BROADBAND MAPPING and UPTAKE PROJECTS</b></p> <p>a. Mapping remaining coverage gaps in rural Canterbury</p> <p>b. Analysing gaps for economic / social assessment</p> <p>c. Promoting benefits to businesses through take up of digital technology – by way of case studies published through various media channels</p> <p>d. Supporting lead Mayor with advocacy / facilitation</p> <p><b>Timeline</b> <b>31 December 2019</b></p>	<p><b>Timaru District Council</b></p>	<p>Rural Canterbury generates much of the prosperity for the region but has suffered from a ‘digital divide’ between town and country. Fast broadband and addressing mobile ‘black spots’ are critical to the economic and social development of our region. For Canterbury to be fully connected, the following needs to be put in place:</p> <ul style="list-style-type: none"> <li>infrastructure – an integrated, resilient network that provides fast broadband and mobile phone coverage to every farm and community in Canterbury</li> <li>retail packages that are fit for purpose and affordable</li> <li>uptake and use of digital technologies and online services to increase economic productivity and improve social and environmental outcomes.</li> </ul>	<ul style="list-style-type: none"> <li>Funding Agreement between ECan (acting on behalf of the Canterbury Mayoral Forum) and MBIE signed.</li> <li><b>A. Mapping remaining coverage gaps in rural Canterbury</b></li> <li>Contract awarded to SQUIZ Limited – project manager (Chris Connell) is well known to Timaru District Council and is also an appointee to the Ministerial Advisory Group for the Digital Economy and Digital Inclusion alongside Mayor Damon Odey. Project scope and approach methodology confirmed.</li> <li><b>Crown Infrastructure Partners (CIP) have just recently announced the next round of Rural Broadband Initiative (RBI2) location extensions and roll-out – announced 18 December 2018. Up to this point, CIP and sector providers have not been openly sharing information – nor are they required to do so. This limits the ability for new sector entrants such as Wireless Internet Service Providers (WISP’s) or other commercial service providers to make commercial viability decisions to deploy capital and resources to new areas. Given announcement, we are now able to access all the updated datasets from CIP, Spark, Vodafone etc. to identify those areas in Canterbury which require some other form of connectivity.</b></li> <li><b>In the process of confirming attendance of CIF at the Mayoral Forum meeting on 1 February to present</b></li> </ul>		<p>Not required.</p>

			<p>updated roll-out information on locations and proposed time-line.</p> <ul style="list-style-type: none"> <li>As members of the Ministerial Advisory Group, Mayor Odey and the project manager continue to advocate for the region with the Minister, MBIE officials, CIP, Rural Connectivity Group, Chorus, SPARK – a key priority being to advocate for the requirement of the sector having to make data and information readily available.</li> </ul> <p><b>B. Promotion of benefits to businesses through take up of digital technology</b></p> <ul style="list-style-type: none"> <li>Contract for Services signed with former STUFF South Canterbury editor Stuart Oldham.</li> <li>First interim report received. Key matters for noting:</li> </ul> <p><b>Sources</b></p> <ul style="list-style-type: none"> <li>There is broad support for this project from key sources in the rural and business sectors. Among others, Industry groups including Young Farmers, Irrigation NZ, Federated Farmers, TUANZ, regional economic development agencies, Chambers of Commerce, WISP's and Lincoln University have indicated a willingness to assist.</li> </ul> <p><b>Publication support</b></p> <ul style="list-style-type: none"> <li>There is in-principle support to publish work associated with the project from the following multi-platform media organisations: <ul style="list-style-type: none"> <li>Stuff (principally Timaru Herald. The Press (TBC)</li> <li>Allied Press (Rural Life, Timaru Courier, Ashburton Courier, Oamaru Mail, The News North Canterbury)</li> <li>Ashburton Guardian (Dairy Focus, Guardian Farming, Selwyn App, Timaru App, Oamaru App)</li> </ul> </li> <li>Kaikoura Star (now owned by Greymouth Star) wants to use copy for advertising features)</li> <li>Rural News.</li> </ul> <p>Storyline / case study material will be available to all Councils for publication on their websites and media channels.</p>		
--	--	--	---	--	--

			<p>There is also an opportunity to publish the stories to a stand-alone website, supported by a social media campaign.</p> <p><b>Next steps</b></p> <ul style="list-style-type: none"> <li>• “Digital hero” case studies / stories now completed with up to 50 – 55 stories profiling case studies throughout the Canterbury region.</li> <li>• Publication plan under development for completion and roll-out of stories across various media platforms in late January / early February.</li> </ul> <p><b>Digital Connectivity – Waimate Proposal</b></p> <ul style="list-style-type: none"> <li>• The Mayoral Forum will recall that this proposal was put forward to Minister Curran with the response to rewrite it and submit it to MBIE as part of the Provincial Growth Fund process. An EOI was submitted by Alpine Energy and received support from MBIE indicating that it “sufficiently met the primary and secondary objectives of the PGF” and requested additional information (specifically technical points) as part of the Application stage. (The secretariat is providing assistance to Alpine Energy to progress this).</li> </ul>		
<p><b>6. JOB READY – PROGRAMME EXPANSION</b></p> <p>Expand programme to match and mentor international students trained in New Zealand to employment in export-facing businesses – all of region, focusing on South Canterbury and graduates at NQF L7+</p> <p><b>Timeline</b> <b>30 June 2019</b></p>	<p><b>Christchurch NZ</b></p> <p><b>\$40,000</b></p>	<p>The CREDS Education and training work programme objectives are:</p> <ul style="list-style-type: none"> <li>• business, education and local government sectors are aligned, working together to make Canterbury a great place to study, live and work</li> <li>• Canterbury has an appropriately skilled and educated workforce</li> <li>• education and training institutions deliver an integrated education programme that maximises benefits to the institutions and to Canterbury.</li> </ul> <p>This funding will be used to expand the Job Ready Programme in Timaru</p>	<p>Contract for Services with Christchurch NZ signed 23 February 2018.</p> <p>First interim report received. Key matters for noting:</p> <p><b>KPI’s</b></p> <ul style="list-style-type: none"> <li>• 160 students have completed the Job Ready Programme by end of first as at 30 June 2018. From those 160, 55 are in internships with 80 in paid employment.</li> <li>• 38 International Students have been placed in regional Canterbury as part of the CREDS Funding Agreement (KPI target is 40). However, there remain two unfilled</li> <li>• opportunities (as of 30 June) so target may be met. Christchurch NZ remain confident it will be able to make up the shortfall in the second year of the contract.</li> </ul> <p><b>Key Learnings</b></p>		<p>Not required.</p>

		(40 students per year, for two years).	<ul style="list-style-type: none"> <li>• <b>Collaboration with universities</b> - trialled seminars at tertiary in collaboration with careers services at Lincoln University. Highly successful and planning on more at Lincoln/Ara and University of Canterbury (UC).</li> <li>• <b>Business capability</b> - SME's in the region consistently not capable of engaging with tertiary and young graduates. When engaging one on one through the Job Ready Programme, they learn to become capable.</li> <li>• <b>South Canterbury SME's</b> - While placements were achieved in Fonterra and Oceania through the Chamber relationship, Christchurch NZ weren't able to gain a foothold in the SME market in a region with low unemployment.</li> </ul> <p><b>Changes to implement</b></p> <ul style="list-style-type: none"> <li>• General - moving from Job-Ready to Talent Hub involving 1) Internship Programme similar to Job-Ready 2) Business Capability Building 3) Student Capability Workshops and Seminars 4) Tertiary Capability Consulting and 5) a Digital Platform.</li> <li>• South Canterbury - need to spend more time gaining the trust and advocacy of member and regional organisations in order to create a lasting talent pipeline between the public tertiaries and SME's in the region.</li> </ul> <p><b>Media</b></p> <ul style="list-style-type: none"> <li>• Media release on an international student who supported a local business to commercialize product in the China market. The release includes a video on the Job Ready Programme and the business's CEO telling other businesses about the value of working with international graduates and the benefits of Christchurch City's Internship Programme.</li> </ul> <p><a href="https://www.christchurchnz.org.nz/news/intern-helps-christchurch-company-crack-china-market/">https://www.christchurchnz.org.nz/news/intern-helps-christchurch-company-crack-china-market/</a></p>		
--	--	--	--	--	--

<p><b>7. IMPROVING PRODUCTIVITY</b></p> <p>a. Investigate new value-add market opportunities that the region is well placed to take advantage of, to improve productivity and create higher living standards; e.g. niche markets, particularly in China / South East Asia, and</p> <p>b. consult and engage with South Island economic development agencies on creating a virtual economic policy unit/function, to support economic development strategy and implementation across the South Island</p> <p><b>Timeline</b> <b>30 September 2022</b></p>	<p><b>Christchurch NZ</b></p> <p><b>\$1,000,000</b></p>	<p>A specific objective for the Value-added production work programme is that planning and consenting processes, and infrastructure managed by local government enable value-added production in Canterbury; i.e. focusing on what local government can contribute to value-added production.</p> <p>The funding will be used to:</p> <ul style="list-style-type: none"> <li>investigate further the global demand side of regional value-add opportunities, to improve productivity and create higher living standards. N.B. this is not engaging with CRIs or Public Research Organisations around commercialisation or supply side initiatives, which is the domain of the Lincoln Hub and other entities, but rather an outward-looking investigation of niche market opportunities for the region, particularly in China / SE Asia.</li> <li>consult and engage with other South Island EDAs, councils and Mayoral Forums – with central government mandate and support – for the creation of a virtual economic policy unit/function, to support economic development strategy and implementation across the South Island. There are some critical common issues where the South Island is best viewed as a single market (e.g., tourism, transport, infrastructure, water). Three joint South Island EDA sessions</li> </ul>	<ul style="list-style-type: none"> <li>Funding Agreement between ECan (acting on behalf of the Canterbury Mayoral Forum) and MBIE signed.</li> <li>Project scope descriptions and deliverables within the MBIE Funding Agreement, have been redrafted with input from ChristchurchNZ and University of Canterbury as the key organisations driving the delivery of these projects. Contract for Services scope and deliverables agreed with ChristchurchNZ and University of Canterbury.</li> <li>As the project duration is over a four – five-year duration, the project scope has been redrafted to ensure that the project working groups are not constrained with regard to exploring opportunities around different products and markets.</li> <li>The Steering Groups will be convened by Mayor Rowley. Following an open RFP process, David Rendall &amp; Associates have been awarded the contract for Stage I of the project. (Contract for Services signed).</li> <li>First Inception Report completed. Project brief and approach methodology confirmed. Monthly meetings between Working Group and consultants confirmed – first meeting held 19 June.</li> <li>All District Workshops now completed. Purpose of workshops is to Identify key challenges and opportunities to increase sustainable productivity and value add in the agriculture (including agri tech) sector. Workshops were well attended with valuable input from participants. We acknowledge the participation and leadership of Mayors attending these events.</li> <li>Regional Workshop to validate draft Roadmap and / or change future direction / opportunities, was held at Lincoln on 17 October.</li> <li>Stage one output is a report including Roadmap (focusing on four priority areas) to be known as the “Canterbury Food and Fibre Industry Innovations Gateway to 2050” initiative.</li> <li>The Roadmap proposing an action plan outlining next step activities, resourcing and timeline for implementation, was adopted by the Canterbury</li> </ul>		<p>Not required.</p>
--	---	---	--	---	----------------------

		<p>were held last year – this proposal builds on that, and on the experience of the Mayoral Forum in creating the Canterbury Policy Forum in 2013.</p>	<p>Mayoral Forum at its recent meeting on 7 December 2018.</p> <ul style="list-style-type: none"> <li>• Implementation of Roadmap under action.</li> <li>• A copy of the full report for Stage One is available on the Canterbury Mayoral Forum website – link below.</li> </ul> <p><a href="http://canterburymayors.org.nz/wp-content/uploads/2019/01/Value-added-production-roadmap-report-Stage-One-Dec-2018.pdf">http://canterburymayors.org.nz/wp-content/uploads/2019/01/Value-added-production-roadmap-report-Stage-One-Dec-2018.pdf</a></p>		
<p><b>8. HIGH VALUE MANUFACTURING</b></p> <p>Work across the Canterbury Tertiary Alliance and with the Lincoln Hub, CRIs and Callaghan Innovation to connect industry needs to research and accelerate knowledge translation to high-value production and manufacturing for export</p> <p>Timeline – June 2017 to June 2018</p> <p><b>Timeline</b> <b>30 September 2021</b></p>	<p><b>University of Canterbury</b></p> <p><b>\$450,000</b></p>	<p>A specific objective for the Value-added production work programme is that planning and consenting processes, and infrastructure managed by local government enable value-added production in Canterbury; i.e. focusing on what local government can contribute to value-added production.</p> <p>This investment will part-fund a co-ordination position (based at the University of Canterbury), to work across the Canterbury Tertiary Alliance (Canterbury University, Lincoln University (including the Lincoln Hub) and Ara Institute) and with CRIs as appropriate to connect industry needs to research and to accelerate knowledge translation to high-value production and manufacturing for export.</p>	<ul style="list-style-type: none"> <li>• Refer “Improving Productivity”.</li> <li>• A copy of the full report for Stage One is available on the Canterbury Mayoral Forum website – link below.</li> </ul> <p><a href="http://canterburymayors.org.nz/wp-content/uploads/2019/01/Value-added-production-roadmap-report-Stage-One-Dec-2018.pdf">http://canterburymayors.org.nz/wp-content/uploads/2019/01/Value-added-production-roadmap-report-Stage-One-Dec-2018.pdf</a></p>		<p>Not required.</p>

<p><b>9. VISITOR STRATEGY</b></p> <p>Work with KiwiRail and other relevant agencies to develop a robust assessment of the business case for reintroducing tourism passenger services south of Christchurch – and to support the regional visitor strategy</p> <p><b>Timeline</b> <b>31 December 2018</b></p>	<p><b>Timaru District Council / KiwiRail</b></p> <p><b>\$50,000</b></p>	<p>A specific objective for the Visitor strategy work programme is to grow sustainable tourism that focuses on the high-end market, encourages a wider seasonal ‘spread’, disperses visitors across the region and South Island, and keeps them here longer.</p> <p>This also relates to the CREDS Regional transport work programme, with its objective of integrated transport planning across modes (air, rail, shipping and road transport) that:</p> <ul style="list-style-type: none"> <li>• prioritises a resilient network</li> <li>• enables the efficient movement of people and freight into, out of and within the Canterbury region</li> <li>• improves social connectedness and wellbeing, supports visitor strategies and improves road safety.</li> </ul> <p>This funding will be used to engage a consultant to work with KiwiRail on an indicative business case for reintroducing tourism passenger services south of Christchurch (Christchurch–Invercargill rail corridor) with initial emphasis on the Christchurch–Dunedin sector.</p> <p>The business case will refer to and build on earlier work, including:</p> <ul style="list-style-type: none"> <li>• a report on National passenger rail network development (Kiwirail, 2010) undertaken by Boulter Consulting and</li> <li>• MBIE’s 2016 review of Tourism infrastructure – highlighting limitations including lack of long-</li> </ul>	<ul style="list-style-type: none"> <li>• Project scoping workshop on 8 March 2018 with KiwiRail, NZTA, Ministry of Transport, Treasury facilitated by MBIE. Key message: KiwiRail has advised that apart from the existing TransAlpine, TransCoastal and Northerner services, they are not in the businesses of developing new passenger routes where they take on the role of marketer, operator, and network provider i.e. carry the full end to end risk. KiwiRail will maintain the existing passenger service routes and will work with event managers and charter operators who are prepared to take on the financial risk of promoting an event and where KiwiRail’s role would be as a “service for hire” only i.e. provide the engine and passenger carriages, drivers etc, and the access to the rail network.</li> <li>• Project scope has needed to be reviewed a number of times pending buy-in from Kiwirail and MBIE on the final project scope. Following a closed RFP process, Visitor Solutions has since commenced project work. (Contract for Services signed). New project scope now confirmed – signed off with MBIE.</li> <li>• Despite reporting record passengers on its TransAlpine and Northerner services indicating that there is a growing segment of the visitor and travel market that prefers this slower mode of travel, KiwiRail has no intention of introducing additional scheduled passenger services without hard evidence that there is a market and a viable proposition. The new project scope will provide tangible evidence on whether there is a market for passenger rail services south of Christchurch, be it predominantly tourism driven and possibly at a scale which might support say, up to three return trips to Dunedin each week. On the basis that a market segment is confirmed, the next step is to research any barriers for putting an operation in place.</li> <li>• Research is evidencing market interest in a tourism route linking Christchurch to Dunedin focused around cycle tourism, visiting cruise ships, and visitors looking to complete a ‘South Island loop’ linking up with popular tourist destinations and existing transport infrastructure.</li> </ul>		<p>Not required.</p>
--	---	---	--	---	----------------------

		<p>distance passenger rail capacity.</p>	<ul style="list-style-type: none"> <li>• Project approach methodology was to undertake the project as a two staged approach which provides for a go / no go decision at the completion of stage one based on outcomes and evidence that a case for a commercial proposition actually exists.</li> </ul> <p><b>Stage One - Preliminary Conclusions</b></p> <p><b>Based on available data the preliminary conclusions of the first stage of the project are:</b></p> <ol style="list-style-type: none"> <li>1. The concept of a South Canterbury tourist rail experience looks promising from a technical, operational and market demand perspective,</li> <li>2. Dunedin Rail is a natural partner that brings significant benefits to the testing and potential implementation of the concept. Dunedin Rail is likely to be central to the concept's feasibility.</li> <li>3. Timaru and Oamaru would be the two main rail stops on route between Christchurch and Dunedin,</li> <li>4. The 'loop' approach to the concept potentially brings many other industry players into consideration (which could assist higher visitation on the Christchurch to Dunedin rail leg).</li> <li>5. Implementation is likely to be dependent on the use of a Silver Fern Railcar, either RM30 or RM18 (both owned by KiwiRail). RM18 would need to be made operational.</li> <li>6. Critically KiwiRail can facilitate or terminate the concept given its central role in any development.</li> </ol> <p><b>Recommendations</b></p> <p><b>Stage One recommendations are that:</b></p> <ol style="list-style-type: none"> <li>1. Phase two of the study (preliminary business model and partnership discussions) be advanced. Key deliverables would include things such as: <ol style="list-style-type: none"> <li>a. Expanded discussions with potential partners such as Dunedin Rail,</li> <li>b. A preliminary business plan with key assumptions,</li> <li>c. An implementation plan,</li> </ol> </li> </ol>		
--	--	--	--	--	--

			<ul style="list-style-type: none"> <li>d. A risk and mitigation assessment.</li> <li>e. A combined report (merging phases one and two together)</li> </ul> <ol style="list-style-type: none"> <li>2. Once completed the study should be presented to the potential partners and then depending on the outcome to KiwiRail for consideration.</li> <li>3. Should the concept be advanced to the next stage a full market analysis and business case should be completed.</li> </ol> <ul style="list-style-type: none"> <li>• Following a review of the Executive Summary, the recommendation to progress the project to stage two has been agreed by the Project manager with reference to the Project Mayor Sponsor.</li> <li>• Funding for the implementation of Stage Two has been budgeted for within the MBIE Funding Agreement.</li> <li>• In summary, progress to date is promising with a key outcome being that there is an operator (Dunedin Rail) willing to work with the Mayoral Forum to develop an indicative business case to encourage KiwiRail to partner with the Mayoral Forum and undertake a full business case to determine whether the operation is commercially feasible.</li> <li>• A copy of the full report for Stage One is available on request.</li> </ul>		
<p><b>10. CANTERBURY BRAND STORY</b></p> <p>Work with ChristchurchNZ to deliver a validated Canterbury story, integrated and aligned with the Christchurch story, the production of a promotional video for Canterbury story, and develop a network of committed funders for ongoing asset development</p>	<p>ChristchurchNZ</p> <p><b>\$110,000</b></p>	<p>Key outcomes:</p> <ul style="list-style-type: none"> <li>• promoting a shared, region-wide brand story</li> <li>• greater efficiencies by leveraging the marketing resources of the region as a whole</li> <li>• responding more powerfully as a region to increased competition from other place brands</li> <li>• helping to accelerate the transition from a traditional to a broader and more progressive</li> </ul>	<ul style="list-style-type: none"> <li>• Funding Agreement between ECan (acting on behalf of the Canterbury Mayoral Forum) and MBIE signed.</li> <li>• Project scope and draft Contract for Services now confirmed with ChristchurchNZ. Canterbury Employers Chamber of Commerce (CECC) has offered to work with the project team during the third phase of project – promotion and leveraging the brand with businesses.</li> <li>• Canterbury brand story will align and leverage off the Christchurch story process.</li> </ul> <p><b>Asset Library – Images and Video</b></p> <ul style="list-style-type: none"> <li>• The asset library project is progressing. This is where all Christchurch and Canterbury brand story images for all audiences will be housed.</li> </ul>		<p>Not required.</p>

<p><b>Timeline</b> <b>31 December 2018</b></p>		<p>economy</p> <ul style="list-style-type: none"> <li>enhancing the value of what the region produces through a Canterbury source-of-origin association (provenance marketing).</li> </ul> <p>Funding is for the following:</p> <ul style="list-style-type: none"> <li>development of media images and video production – particularly of Canterbury business / industry.</li> <li>video production to tell the story, in a style aligned to the video of the Christchurch story.</li> <li>Contracting a resource for 6 months to work and fundraise for the ongoing development and use of both the Christchurch and Canterbury brand stories to promote Canterbury as the preferred destination to work, live and invest.</li> </ul>	<ul style="list-style-type: none"> <li>The software Brand Kit is being used (can house imagery, video, presentations, infographics etc.) as per Canterbury Story requirements. This is the same software used by Tourism NZ, and EDA/RTO agencies.</li> <li>A number of video projects are being progressed within ChristchurchNZ including the Christchurch Narrative video. ChristchurchNZ is working to achieve significant cost efficiencies by filming the Christchurch and Canterbury brand story concurrently.</li> </ul> <p><b>First Cut Canterbury Brand Story</b></p> <ul style="list-style-type: none"> <li>ChristchurchNZ presented the first cut Canterbury brand story to the Mayoral Forum on 7 September.</li> <li>Preliminary discussions with NZ Story on the economic development position for the region. NZ Story toolkit model is the baseline inspiration for our Canterbury proposition, and ongoing collaboration with NZ Story is seen as essential to the success of the Canterbury regional economic growth plan.</li> <li>Alignment with Tourism NZ. There has been strong consideration into how the Canterbury story can be supported by and aligned with the Christchurch story to best capitalise on Tourism NZ investments overseas and the enhancement of the regional dispersal proposition.</li> <li>Stakeholder engagement plan has been confirmed for roll out across the region. Key points of focus are the development of the functional toolkit that serves as a resource for business and agencies across the region, and the proactive education and training for regional business.</li> </ul>		
<p><b>11. NZ AGRICULTURAL SHOW - INNOVATION PAVILION</b></p> <p>Work with NZ Agricultural Show (formerly Canterbury A&amp;P) to establish an Agri-science and Innovation Pavilion which is able to draw</p>	<p><b>NZ Agricultural Show</b></p> <p><b>\$35,000</b></p>	<p>Key objectives for Canterbury Mayoral Forum</p> <ul style="list-style-type: none"> <li>Grow the profile of Canterbury as a high-tech region by showcasing innovative technology initiatives promoting the region as the preferred place to work, live and invest.</li> </ul>	<ul style="list-style-type: none"> <li>Scope of project agreed with Canterbury A&amp;P event management.</li> <li>Business case approved by MBIE in March. Funding Agreement received with funding conditional on the confirmation of the other anchor tenants in the pavilion, and confirmation all funding required for delivery of the project is secured. These conditions have now been met.</li> <li>Following consideration by ECan Executive to the resourcing of a key site within the Pavilion, it has been</li> </ul>		<p>Not required.</p>

<p>together a number of key industry stall holders to promote and showcase innovative technology initiatives and has the ability to grow the profile of Canterbury as a high-tech region. This becomes the opportunity to attract highly specialist individuals, business and investment into the region</p> <p><b>Timeline</b> <b>31 December 2018</b></p>		<ul style="list-style-type: none"> <li>Confirm industry partners and develop a programme of workshops, panel discussions, and best practice case studies, to showcase regional innovative technology initiatives stories over the three-day duration of the Show.</li> </ul>	<p>determined that this is not optimal forum to showcase ECan / Mayoral Forum key projects.</p> <ul style="list-style-type: none"> <li>Key pavilion site-holders confirmed include MPI, BLINC (formerly Lincoln Hub), Irrigation NZ and KPMG. BLINC promoting the innovation programme workshops to be held in the pavilion</li> <li>NZ Agricultural Show was held 15 – 17 November. Information and images of the Innovation Pavilion were provided to Mayoral Forum in an email (dated 15 November). In summary, the Pavilion was well attended – in particular the BLINC hosted two-day programme of workshops and panel discussions. In addition, recognition of the Mayoral Forum as a sponsor was acknowledged appropriately.</li> <li>A final report from the Event Manager including achievements, actual budget, key learnings and recommendations has been received – final Contract milestone.</li> <li><b>Project complete.</b></li> </ul>		
<p><b>12. SOUTH ISLAND EVENTS CALENDAR</b></p> <p>Development of an integrated and centralised event calendar accessed through a unique portal but available to all destination marketing and regional tourism organisations (RTO's) to promote all South Island major events</p> <p><b>Timeline</b> <b>31 March 2019</b></p>	<p>ChristchurchNZ / Christchurch Airport</p> <p><b>\$150,000</b></p>	<p>Key outcomes:</p> <ul style="list-style-type: none"> <li>Ensure that at a regional level, tourism initiatives, strategies and products can be planned around major events</li> <li>Inform infrastructure planning ensuring optimization of regional tourism marketing investments</li> <li>Encourage collaboration and partnerships between tourism marketing and economic development organisations throughout the South Island</li> <li>Development and implementation of an event by event planners, can be done in a coordinated manner and avoid competition occurring between major events happening</li> </ul>	<ul style="list-style-type: none"> <li>Business case approved by MBIE in June and draft Funding Agreement received. Project scope and approach methodology now confirmed with Christchurch NZ. Contract for Services between Christchurch NZ and ECan (on behalf of the Mayoral Forum) confirmed and signed.</li> <li>Investigation into whether EventFinda could host and manage a shared event website has identified a number of issues which discount this option i.e. cost, coordination of events.</li> <li>This initiative is being incorporated into Christchurch NZ's internal project to develop a new on-line website for Christchurch NZ along with reviewing other digital on-line services and information it provides / will provide i.e. destination promotion with other South Island regional tourism organisations and work being done to develop a South Island Destination Management Plan.</li> <li>ChristchurchNZ's digital team has begun work undertaking the best way to create a digital platform that</li> </ul>		<p>Progress has been slowed by reorganization within Christchurch NZ. However, with GM structure in place and project delegated to GM Marketing, Brand &amp; Communications, we expect better progress given the natural alignment to the prioritized digital communication review now underway at Christchurch NZ.</p>

		on the same date.	<p>meets the project needs, functionality and cost.</p> <ul style="list-style-type: none"> <li>• A position description has been created for a fixed-term contractor to manage the project from end to end – role advertised prior to Christmas. (Preferred skillset is an IT training consultant with a high level of stakeholder management experience, as the key part of this project will not be the build of the site, but in rolling out buy-in and training with the South Island RTO's and Economic Development agencies).</li> <li>• The preferred contractor will work in-house with ChristchurchNZ's Destination Development team given best fit in terms of engagement with the tourism and event sectors.</li> <li>• A full project plan is being developed with completion by February 2019 including a high-level draft proposal for the software plan.</li> </ul>		
<p><b>13. SOUTH ISLAND DESTINATION PLAN</b></p> <p>Development of a South Island visitor destination management plan that:</p> <ul style="list-style-type: none"> <li>• recognises how domestic and international visitors flow through all our regions</li> <li>• identifies the infrastructure and attractions we need to cater for current and projected visitor flows – including identifying opportunities to encourage high-value, low-impact tourism; improved visitor</li> </ul>	<p><b>Consultant yet to be appointed / Inter-regional Steering Group</b></p> <p><b>\$250,000</b></p>	<p>Key Outcomes:</p> <ul style="list-style-type: none"> <li>• quantify and understand current and projected future visitor flows (domestic and international) and analyse markets, visitor itineraries, visitor spend, occupancy rates and the current range of visitor experiences and known gaps</li> <li>• work with Regional Tourism Organisations (RTOs), District Tourism Organisations (DTOs), the Department of Conservation (DoC), Tourism New Zealand (TNZ) and the Tourism Industry Association (TIA) to review existing destination management plans and establish a set of core principles and objectives for a South Island plan that</li> </ul>	<ul style="list-style-type: none"> <li>• Inter-regional Steering Group established - comprising nominated Mayors from South Island Mayoral Forums, Regional Tourism Organisations and central government (MBIE, Department of Conservation).</li> <li>• Application seeking funding of up to \$250,000 completed and forwarded to MBIE for consideration. We have a verbal confirmation that the application has been approved and we await written confirmation along with any conditions.</li> <li>• Terms of Reference and Request for Proposal documentation completed and signed off by Inter-regional Steering Group.</li> <li>• The first face-face Destination Management Planning workshop was held on 21 November in Wellington. The workshop agenda focused on the process and approach methodology for developing the South Island Destination Management Plan with consideration to aligned strategic work already in place or underway by some regions / districts, and the Department of Conservation. Agreed next steps under action with key action being the RFP and procurement process.</li> </ul>		Not required.

<p>dispersal through our districts and regions; and a wider seasonal spread</p> <ul style="list-style-type: none"> <li>establishes agreed priorities for local and central government infrastructure investment, and</li> <li>ensures that tourism, and the infrastructure provided for tourists, benefits our communities and maintains a 'social licence to operate'.</li> </ul> <p><b>Timeline</b> <b>31 July 2019</b></p>		<p>aligns with the Government's development of a national tourism strategy</p> <ul style="list-style-type: none"> <li>understand visitor experience expectations</li> <li>understand resident expectations of visitor activity ('social licence') and environmental limits to tourism growth</li> <li>identify and prioritise current and projected future infrastructure needs to support sustainable tourism, in terms of both visitor and resident expectations</li> <li>form a strategic partnership with the Provincial Growth Fund for prioritised infrastructure investment by local and central government</li> <li>identify other opportunities to work together between regions and with central government to ensure that South Island tourism is socially, economically and environmentally sustainable.</li> </ul>	<ul style="list-style-type: none"> <li>RFP published in December with closing date for submissions due 20 January 2019. Positive interest to date with up to 30 prospective suppliers downloading RFP application.</li> </ul>
